What Is xChanger?

xChanger is an exchanging program used to deliver adfly clicks, and youtube views, likes, subscribers, favorites, and comments. Regarded as the first program of its kind, it was created in 2011, and has gone through major changes to bring users the best exchanging experience possible. Powered by the users, the more, the better.

What's the Contest?

Simple. The user who refers the most active referrals by Oct. 15th, gets \$35 via paypal.

Requirements:

- Anyone can Join and compete.
- Your referrals are only counted if they're active. (25 Adfly or YouTube Points)

How Can I Join and Compete?

If you don't already have an account, you can either [register here](#). Or [Download the program](#) and register on it. You'll need to active your email before you can log in though.

After your account is good and ready, you then click "User CP" then "View Your Referrals". There you'll be able to view your referrals and see the amount of points they have as well as the country from which they dwell. There is also the "Promotional Banners" tab to view some referral banners, and generate a copy and paste code. If you want to view more banners [go here](#).

Lastly, to keep track of your competition, you can [view the leaderboard here](#). Each time you visit the page it updates the current number of referrals from the top 5 members.

Again, your referrals are only counted if they're active. (25 Adfly or YouTube Points). Try to get as many referrals as you can.

There is also a live countdown till the day the contest is over. Which is October 15th, 2014 at 5:00PM EST.

How Do I Get My Money When This Is Done?

After the contest is over, you'll be emailed from 0BliVi0N asking for your paypal email to send you

the \$35.

Are You Ready?

Then download the program, and get started!

If you have any questions, [PM 0BlivION](#).

Good luck to all!

Essentially yes, the number of people you refer can be considered as your score towards this competition. You can check the scoreboard [here](#), alternatively you can see how many people you have referred by going into your user control panel on the program itself.

Good luck!

You get points for the links they surf on the program as well.

More information about how many points - <http://www.thexchanger.net/help.html>

The leaderboard shows how many referrals you have.
