Thread: [probux referrals](#)

Theratman - September 10, 2014, 4:23 am

hey everyone so recently i just joined up to probux after reading a ebook but i had a question what exactly happens when you rent referrals,like how does it earn you more money and if you rent referrals does that mean i can not click but still earn money or do i have to click the ads still?

thanks guys appreciate the help

Rented referrals earn you passive income, but you have to click your daily ads to benefit from them. You rent them and continue to do your own ads and as you progress, your income increases. Don't expect a payout if you haven't been 100% legit in the entire process, and don't get your hopes up even if you were.

The income that you aren't physically doing. Your rented referrals will click their ads and you get paid for their clicks as long as you are clicking your dailies as well.

Stop Probux. I had alot of hopes first, I clicked EVERY day for 5 months straight.

What happens is when you get rented referrals, they expire after a while. So when yu have around 50 referrals, you can get for example 10 a day but lose 12.
