(Sep 11, 2014 01:35 PM)BoL Cracker Wrote: [\[CITE\]](#) Huge vouch for Venny here. The e-book was really easy to follow, and I was already making some money in a couple of hours while just playing on Steam! It's so easy a 12 year old kid could do it. I'll be making my money back in no time with this method.

(Sep 11, 2014 02:10 PM)Pyrion Flax Wrote: [\[CITE\]](#) Steam God is great! I've read it, and the method is very easy and detailed. You do need to spend a very tiny amount of money to start off, but after that you'll be easily earning it back. The method's fun to do and you can just sit back and relax while doing it. Huge vouch from me!

(Sep 11, 2014 02:25 PM)Booza Wrote: [\[CITE\]](#) Vouch for Venny503's ebook. As advertised, it's really easy to understand and got right to the point. It is a 100% no bullshit ebook and you will be making money if you put a bit of time into the startup. After that just sit back and play some games then watch the money roll in. I'll be using this method for a long time!

(Sep 11, 2014 04:18 PM)Nadel Wrote: [\[CITE\]](#) I was first skeptical of this method when I saw it, but honestly it's probably one of the best ebooks I've ever read. It's not any of that "blackhat make \$1000 weekly autopilot" stuff but after right after getting set up I was already getting a small bit of money. I vouch for this method 100%!

Abso-fucking-lutely not. This is has nothing to do with creating content and stuff, you can do this with little to no experience. All you need is a Steam account.
