Thread: [Did you see this strange thing?](#)

LordCoder - September 13, 2014, 12:56 am

Hello everyone!

Recently my pool sent me a payment. Everything is alright but I see it's not confirmed and it was sent 7 hours ago. Well, I checked the block and I see it's orphaned.

Okay right I thought it was normal maybe. But then I saw the latest blocks and ALL ARE ORPHANED!

[img]<http://s25.postimg.org/y67fw81pr/orphan.png>[/img]

This is also happening with other pools. For some reason the Bitcoin network is rejecting all blocks! Just check yourself or maybe it's my browser's problem.

Maximum - September 13, 2014, 1:13 am

I got the same thing with a payment I received a few hours ago, the payment still says it's unconfirmed.

.Matt - September 13, 2014, 1:14 am

That is crazy. The price is going to drop like a mofo i guess.

Grim - September 13, 2014, 1:15 am

Man this should be an alert if it is happening to multiple people to not trade BTC now.

LordCoder - September 13, 2014, 1:17 am

And the people should stop mining NOW! They lose money right now. No confirmations means nobody can buy anything. Please be careful when buying something atm.

420 Blaze It - September 13, 2014, 1:18 am

No confirmations means that money doesn't count as anything, stop buying.

LordCoder - September 13, 2014, 1:33 am

All transactions are confirmed now for some strange reason lmao. Closed.
