RUii --> Fumes --> Callam

BTW everyone, i currently have limited access to HF, i'm busy IRL.

Euphorical - October 4, 2014, 4:04 am

Can we purchase monthly/quarterly? I'm interested in repurchasing after my current vpn ends.

I am currently using this from when Fume sold it to me and the newyork and Uk servers seem to be down. Do i need the new config files?

Callam - October 12, 2014, 4:40 am

I'm still busy with IRL stuff which is why the \$5 Lifetime deal is still going.

\$5 is the cheapest i will sell lifetime access to the VPN.

Account activation was instant, going to test servers, thanks.

HFTetramorph - November 27, 2014, 11:56 pm

Il purchase if the 5 dollars deal is still active. PM me if it is and Il buy shortly after :)

I purchased, After I discovered that the NewYork Server wont allow me to connect (I have PMed)

The UK server doesn't respond to any requests.

Netherlands server works great

Seattle works great as well, I only tested the TCP protocol (which is a issue I have)

I will update this post if im able to have some of these issues fixed

Overall 5 dollars lifetime is a great deal for 2 working servers

Regards

unpatin - November 28, 2014, 10:34 am
