Hello Hackforums

I've recently started working on Blender and I've made a couple things.

1) Wood Chipping Animation

- Mine: <https://www.youtube.com/watch?v=tNS7DA0pbRo>

- Tutorial: <https://www.youtube.com/watch?v=YFmN7eTNfNw>

2) Bowl with Cloth Draped over it

- Mine: Spoiler ([Click to View](#))

-Tutorial: <https://www.youtube.com/watch?v=2zd1Al198l8>

The render quality on the Wood Chipping Animation is Shit because I had the samples set only to 200 (I think) for faster render speed.

Lemme know what ya think

?
