I would like you guys's honest opinion on my tiny improvement? Maybe even a Rating 1 - 10? ?

It looks too blurry imo. If you reduced the blur a little bit more it'd look better :)

7/10 for now though!

I think that it looks professional and HQ, I just don't like the idea. I think the mountains and background features make the first picture awesome, but none the less the second pic alone looks good.

8/10

-10 - 10

I dont like it at all. I prefer the original one. :-)

Well it is suppose to be blurry like that lol, it's a radical blur.

Hi,

I personally don't like the edit as it is way to over-edited.

#Reliant - September 14, 2014, 8:24 pm

What were the "improvements"?

Imho it ruins the picture, sadly.

if you're going to say "well lol its supposed to be like that" then you might as well not ask for criticism

the first pic looks more "improved" imo

Pernille - September 14, 2014, 8:32 pm

I think it looks great man! Keep it up. :)

Helios™ - September 14, 2014, 8:33 pm

I find the original picture way better. The blur just made it look shittier.

3/10

Well, I'm assuming I'm not good at picture improvements when it comes to environment. Maybe if you seen my other work, then you might be impressed.

I'll be sure to be a little more careful on my blurs, thanks for your time ?

Thanks for the rating bud! I haven't really took my time on it, I'm pretty tired really. I was just messing around with blurs and color corrections.

I wouldn't say it's been 'improved', actually starts to hurt my eyes after looking at it for a bit.

Much prefer the original lol

thc gummy - September 14, 2014, 9:18 pm

Little too much Zoom blur. My only issue is when I scrolled down to it, I could feel my eyes attempt to refocus. Little too disorienting.

Seacroc - September 15, 2014, 12:47 am

I like your concept although it is too edited.

5/10

MONsTER - September 15, 2014, 9:47 am

Not to sound harsh or anything but I don't understand what you've done to it other than add a blur? If I'm missing something please correct me, but there is nothing that has been added to the picture in my opinion that makes it unique in any way. 3/10.

Thanks,

I basically just added a radical blur with a few color corrections and 2 pictures with an overlay. I was extremely bored and tired and I pretty much suck at designs like these. I'm more on the banners, gaming type of designing ?

zSerity - September 15, 2014, 1:48 pm

It's blurry and kinda gave my eyes a headache looking at it, but you're going in the right direction, just reduce the motion blur a bit.

iKick - September 16, 2014, 8:36 am

I was a bit trippin after looking at it for too long.

It's a tad too much blur IMO.

Xerah - September 16, 2014, 8:40 am

I agree that perhaps it was a bit too blurry, but I like the concept you adapted.

Kind Regards,
