Reported for Post to PM.

That isn't allowed on HF.

Technically its not post to pm, its a way for them to enter the giveaway and the winners are automaticly the first 3 people.

How the heck is this not post to PM?

S?kid - September 16, 2014, 2:45 pm

This is fine in my opinion. Hundreds of other giveaways need to be reported then as well. Such as xbox live code giveaways. You post saying you want one and they PM you one. Same concept here. Same applies for others giving away eBooks. How is this any different?

You fucking dumb? Post to pm = people need to post and then PM the OP, he says he will PM THEM the psd , not that they need to PM him.
