Mr. Sultan's E-Whore Shop

What's New?

+ 08/Nov/2014 New eBook release!

Greetings and welcome to my thread o aspired e-whoers. Mr. Sultan here with new awesome e-whoring products. Many positive feedback of my previous eBook has pushed me to write new books, better than the previous! As I mentioned in my previous sales thread, I have around 5 years of experience in the e-whoring field and have mastered this art to quite an extent. I've been involved in various niches of e-whoring learning the tricks of this trades, and thus, have produced more great eBooks from my another personal [color=#FFD700]100% risk free methods. All the result of my hard work and experience during the years is being presented right before your eyes, so you don't have to go through the time and effort I have been through!

This methods that I'm selling have done me wonders and it would be very selfish and self-centered of me if I don't give back to the community. After all, HackForums has done so much for me, so why not contribute. According to one of Arnold Schwarzenegger's 6 rules of success is that, Whatever path that you take in your lives, you must always find time to give something back, something back to your community, give something back to your state or to your country.

Now that part is cleared up, without further ado, I present to you, my products!.

1. Controlling A Man's Psychology - from a woman's point of view [NEW RELEASE!]

Controlling a man's psychology from a woman's point of view deals with how to think like a woman in order to get a man or a woman. If you have a goal of winning someone of any sex for a relationship or for selfish interest, you should first understand the character and thought pattern of the sex you want to win. Your aim may be to disguise as a particular sex, maybe male or female, to win an opposite sex. Your first point of call will be to understand how this opposite sex thinks.

The aim of this book is to reveal the female's thought processes and views in her quest to win a man. We will be considering "How a woman thinks in order to win a Man". E-whoers will find this book helpful and will be able to boost their earnings with this.

2. E-Whore Mastery (Phone/Computer)

before I tell you more about what this eBook is, first I'll tell you what the eBook is NOT:

Regarding Grammar, I couldn't find any spell mistakes, and everything was really easy to understand.

Regarding the ebook Layout: What I liked was OP uses different colors in the ebook to make it easier to read and follow the instructions. It's not the usual one color boring old ebook that you have to sit on top of the screen to follow the instructions. Tons of pictures and examples are provided, so it's really easy to read and follow!

Everything promised in the thread is delivered, guaranteed! If you are starting out with e-whoring, this ebook actually has almost everything you would need to know regarding e-whoring.

It is extremely in-depth and covers just about everything you need to know.

To be honest, I am not one to buy ebooks. I usually find them to be complete time and money wasters. You'd have a better chance earning money by throwing your money in a fish pond than by following the ebooks sold on HF. With this ebook, it's a different story. If you put in the TIME and

EFFORT, you WILL make money.

Vouch for this ebook, great job OP.

There are a lot of tips and tricks that have not been seen on HackForums. His grammar and language is fluent.

The way that he writes is not boring and hard to understand, Sultan goes down to every detail and I am sure that everyone could understand this eBook.

Even as an experienced eWhorer I still have learnt some tricks from this eBook.

Worth 20\$

money out of men in exchange for the your(the girl's) nude pictures/videos or webcam shows. Hope
