Thread: [SKT T1 Skins and TPA Skins re-released](#)

Ienaos - September 17, 2014, 1:50 pm

The SKT T1 Skins and the TPA Skins were released, for now.

I am so happy, I've already bought SKT T1 Zed, SKT T1 Lee-Sin, and TPA Ezreal.

Who else has bought something?

Optimusx - September 17, 2014, 2:18 pm

Do you know how long they will be available for ? I'm waiting for my referrals to come in still :(

Same with the Championship Thresh skin! Looks like my wallet's going to be empty for a while zzzz.

Hidden Carry - September 17, 2014, 2:21 pm

Hi,

Wow and no Rivenirino. I'm sad. :[

Aceman - September 17, 2014, 2:33 pm

Well there goes the worth of those skins. Here I thought I had something rare.

Hi,

That Championship Thresh, tho. I might buy it.

Hi,

Nevermind. If it was Riven's Championship skin, I would buy it without a heartbeat. I don't think I'll get anything from this release, to be honest. Nothing that interests me. No need getting greedy.

I'm spending too much on this, adding onto the OP I got Champ Thresh and maybe SKT T1 Vayne. Help me Grin ? .

Hi,

Stop buying shit that you don't really want on champions you don't really play. :)

Easy.

I mean, I think Shockblade looks better than SKT T1 Zed, but I'm a SKT fanboy so I got it.

If I were to chose though, Thresh.

I have shockblade but I love the look of skt1 so much. I get my check tomorrow so I hope they are still in the shop (they will probably be till like 1 week after the world championship finals)
