Thread: [Remember to make tutorials for the tutorial section <3](#)

S?mbra - September 17, 2014, 7:28 pm

I want to learn more about this, but half of the tutorials on the tutorial section are from weeks ago, and I already read all of them.

I know a lot of you are super talented, so please remember to make tutorials so people like me can be awesome too <3

When you're not satisfied with what you're finding here, you can check out youtube. They have lots of comprehensive tutorials, though they're not all recent.

Why waste time on HF tutorials when youtube has a lot of better stuff to offer

Give some ideas for tutorials and I could definitely try.
I'm just not sure what people look for.
