Thread: [\[TUT\] Invite All Friends To Like A Facebook Page](#)

?XiS - September 19, 2014, 12:59 pm

If you have over 2k friends on facebook, it can be a bit tiring to invite them to like your new page one by one. So why not invite them all at once instead, simply by following this tutorial.

1. Go to the page you want to invite your friends on
2. Click invite friends
3. Scroll ALL the way down until all the names have loaded
4. If on Google Chrome/Internet Explorer, press F12 and click the "Console" tab. If on Firefox, press CTRL + SHIFT + K.
5. Paste the code into the box at the bottom and press enter:

```
Code javascript:var inputs = document.getElementsByClassName('uiButton _1sm');
for(var i=0; i<inputs.length;i++) {
inputs[i].click();
}
```

Hope this helps.

Kind Regards, AXiS ?

Nice share,

I've seen this around before, and seen programs/web-scripts that do this, but this seems pretty simple lol.
