Thread: [Scammed By Kiyomi - 750\\$ USD UID 1817532](#)

Vaulty - September 19, 2014, 3:48 pm

That Kiyomi user from his thread <https://hackforums.net/showthread.php?tid=4451626>

has scammed me for \$750 pretending that he can ddos and any website with having a private botnet and after paying him \$450 for setting it up and getting me the bots he then said i need a server so i told him why he didn't say so from the start and then he got another guy on skype called thesgtluca and tried to scam me together. and pm me if i can pay another \$300 he will let me use his personal ddos which is on a server , and then he went to ask another user which is Extreme hf he is a really legit user and i knew that this Kiyomi spammer asked him if he can buy a ddos from him to take down the website and would pay him in BTC. And now he is threatening me and is refusing to pay me my money back. Attached are the skype logs, Proof of payment and screen shots as a proof, also he edited his thread and removed his skype ID but i have screenshots.

sorry to hear about your loss OP. Goodluck getting your coins back man :(

Marwix - September 20, 2014, 12:45 am

Alright here is my explanation:

1. I am NOT the real seller of the thread. My job was to open the thread for my friend to sell it and nothing that happens between you and the real owner has nothing to do with me. Especially NOT if you're exchanging money with him.

2. I don't see why you accuse me, because you have been giving proof of him scamming you, not me. It has nothing to do with me. You claim that it was because I opened the thread? Srsly?

<https://gyazo.com/cf3d75a833538feff264a932cba17625> < You put all blame on me without even telling about him? Man, that's some bullshit.

3. My friend also told me that he earned a 1000\$ from somewhere and that was from you but I wasn't a part of the transaction in any way, not did I know that you guys did the transaction:

<https://gyazo.com/bcf93878625f1e5c6bc1361a1aac7e0a>

Here are some other screenshots from his other account:

<https://gyazo.com/9babe2088c51805745518bf001479db5>

<https://gyazo.com/a8eb9d8476e7b6062cec71a45d56c991>

<https://gyazo.com/f3731b142a26757bdda27088544af228>

Also, take a close look on my rep. Why the hell would I want to scam someone? Do you think that I'm trying to risk my account getting banned? No.

I've never had a scam report for anything ever since I joined this forum.

Please view them carefully and try to understand what I'm trying to tell you.

If you want to accuse someone or create a deal dispute, at least do it the right way and that is on his account which is Child's Play. I was trying to explain for you yesterday but you didn't care and just said "Fuck off, I'm creating a deal dispute.". That's not a good way to solve things man. Also, you never mentioned me in your screenshots. How do you know that I was that guy with a russian picture? Show me some proof.

Vaulty - September 20, 2014, 1:37 am

hey if you want it resolved stop saying its not you. its all you who scammed me especially after editing the thread to show the members that it's not you and try to scam them too. so better PAY me my \$750 that u tried to rip me off and u just don't know anything about what ur doing. Scamming members as if u know what ur doing and rip them with big amounts of money and then going to respected members asking them to do the job ur supposed to do.

iKick - September 20, 2014, 1:42 am

Okay so..

Kiyomi just hit me up on Skype all confused. He has explained me everything from beginning to end.

Kiyomi is in no way involded with this. He only has one skype and he posted the thread for the Aphrodisiac guy.

<https://hackforums.net/member.php?action=profile&uid=1761017>

Kiyomi is an awesome guy. He values his account and appreciates it, he would never go ahead and take the risk of losing it.

As I said, Kiyomi's only Skype is tsukikohf and he would in no way scam you.

How are you certain that Kiyomi is the Russian flag guy or is in any way Aphrodisiac ?

Aphrodisiacbot : 193.0.xxx.xxx

thesgtluca : 87.0.xx.xx

tsukikohf: 109.58.xxx.xxx

Might wanna reconsider your thoughts about the fact that it was indeed Kiyomi's fault?

Vaulty - September 20, 2014, 1:49 am

Of course it's him. what are you even talking about. Listen you Kiyomi that will not be resolved except you paying me what you ripped from me, and stop acting that its not you, As all the proofs show that its you.. And learn not to ever think of ripping any of the respected members of that great forum.

iKick - September 20, 2014, 1:53 am

Okay, I will not get too involved in this but I'll say this:

What evidence is pointing in his direction other than the he created the OP ?

Did you even read his comment ?

I'm trying to help you get your money back aswell, but the thing is that you're looking in the wrong direction here.

iKick - September 20, 2014, 2:05 am

If he would have deleted the thread, that would probably say something right?

He is just warning other people now, he should have done it earlier.

You should stop looking in his direction. It really wasn't him..

Trojan - September 20, 2014, 2:09 am

Why would you pay this kid \$750 anyways?

Vaulty - September 20, 2014, 2:12 am

Also to prove for you that its the same guy. he wrote in his post "I was trying to explain for you yesterday but you didn't care and just said "Fuck off, I'm creating a deal dispute.". Well as I explained. at first he asked for \$450 for a very strong irc botnet plus 5000 bots and he said it will be the strongest ever. After he took the money he said you have to have a server, and I told him what server u never mentioned a server. To make it short scammed me in sending him more money as I dont know how to setup that stuff, and told me for extra \$300 I can use his private ddoser for lifetime, and its already setup and its a private bot never been shared on HF. And at the end it was a big scam

Arnette Rene - September 20, 2014, 2:38 am

I really do believe that Kiyomi is innocent. He shouldn't be accused for something that he wasn't a part of. You should try to blame Child's play instead.

Also, you didn't answer to his questions. How did you know that it was him? Do you have any proof?

Man, as I said in the beginning.

1. I don't have the money. Child's play scammed you, not me. This is what you wrote to me (example):

Code I will create a deal dispute if you don't return my money.But.. I wasn't the one who scammed you.

2. I was asking for proof regarding the skype ID. You just wrote that it was me using the second skype account without showing proof.

3. I just posted an example of how you said it. You said the same thing yesterday over and over again. Check the screenshot. I had no idea what have happened and I was really confused that you appeared and accused me out of nowhere for something I didn't cause.

Also, you should probably consider reading the HF rules a bit more.

Code HF will not be held responsible for deals made by members. All deals at your own risk.

Code Attached are the skype logs, Proof of payment and screen shots as a proof, also he edited his thread and removed his skype ID but i have screenshots.Where did I change my skype ID..? ?

The product thread is still up untouched nor changed.

Should have just bought bots from me or Bull. ?

proof for what that u scammed me. isn't it clear enough that u ripped me for \$750 , and trying to act that u didn't. Trust me u wont get way with this no matter how u keep running in stupid circles trying to get out of it, and nothing more proves ur scam then all the ones i posted. And no stronger prove after u editing ur thread and saying its not urs its whatever name ur saying and want us to blame him. Childs Play - September 20, 2014, 6:58 am

From Aphro "No proxy selling was happening, Kiyomi was not paid to resell this product he is a part of Team Aphrodisiac and just receives a percent on our product like other team members, now time to denounce this whole scam report! :D <https://gyazo.com/b2b13f19ae8ac7a99e91e44b09b6b867> gg mate. Also just to back myself up I will give some free bins out to aphrodisiac! As well as go on teamviewer and show people how I did not scam anyone either :) Kiyomi will no longer be responding as this has nothing to do with him. Childs Play will be my speaker. Or come talk to me on skype for a meet and greet (rofl)"

From Aphro "You sound so unintelligent and so mad that if I knew this would all happen I would have never have done business with you. This isn't about the money or I would give it back. It is about my pride. You have no proof at all Kiyomi scammed you because he didn't and neither did I, you and your friends just had to open your big mouths and now I won't give you your product. Try the friendly approach next time. P.s this isn't a hackforums deal so admins can not get involved so once again good game sir." Now on a personal note; Wow well played Aphro.

At the end of the day, all of you were just instrument for a scam. Hence, your names have been tarnished for hosting a thread for a scammer.

NastyCookie - September 20, 2014, 7:07 am

OP is confused i guess, it sucks if deals are made trough this way, i hope you will exactly figure out what happen and the most importend to Kiyomi, you have made a thread for your friend, your are in business too. Take your responsibility to talk with your friend and get his money back. Its \$750.. you cant rip that ammount of someone else.

OP, never make deals like these for \$750, read some tutorials how to setup dedicated attack servers, with that money you had could purchase 8 dedicated servers wich will give you an insane power.

Good luck bro by getting your money back!!

Admins are not going to get involved you idiot. It is not a matter of hackforums and has nothing to do with the original product they were both selling.

By not delivering the product, one is considered a scammer. If he just provides the product, OP will be happy and everything will be resolved. That's just how it works, I know threats may not be what you want but that's just how it is when it comes to such large deals.

You see I was going to deliver the product until him and his partner started threatening me and my partner Kiyomi, I am off to the gym I will be back on in a couple of hours and I will respond to accusations the best I can like I said I will be giving away free copies of my IRC bot too just to show people I am no scammer and neither is Kiyomi. Peace for now."

Like I mentioned, in the end you're just a scammer if you don't provide a product in the end. You may give away bins of your IRC bot, but still, you did not provide your product. OP was just mad because he didn't receive his products, I would feel the exact same way if I was to lose out of \$750. If you just over look his threats, and provide the product, Kiyomi and your names will be cleared.

Simple.

Vaulty - September 20, 2014, 7:20 am

Horde - September 20, 2014, 10:43 am

But im pretty sure i've seen people getting banned for proxy selling this way? giving him a % of sale because he's a ub3r and the other guy is a l33t O_O

oh well whatever nasty scam though.

ChaosTheory50 - September 20, 2014, 10:54 am

Hope you get it resolved, such a shame you lost 750\$... Never feels good to be scammed, obviously

Astute - September 20, 2014, 11:22 am

Damn OP, hope this gets resolved, \$750 is a ton of cash :(

tweety - September 20, 2014, 11:49 am

Kiyomi has been proxy selling, the SST section is for ub3r's only, it states on the SST section that you cannot sell for other members. It's also in the rules. Kiyomi has broken several rules and assisting a scammer.

You are taking full responsibility, I hope you enjoy your ban.

'8. Only ub3r can create threads in this section.'

'Can I sell for other members?

Members are not allowed to sell for another member here. Those who are ban evaders, negative reps or not upgraded should not be allowed to sell in our marketplace by proxy of another member. '

He is assisting a scammer, broken several rules and now trying to evade responsibility because 'he

does not own the product'. I hope justice will be served.

Are you denying all the evidence I have given above? Are you denying it? Are you accepting it? I provided the evidence that you are indeed scamming, broken several rules and assisting a scammer by doing so. What have you got to say for yourself?
