-Why do I deserve this UB3R upgrade?-

First off all, I'm always trying to be as HQ as I can and never scam/troll/flame or piss anyone off. I'm member since October 2013 which is almost 1 Year now. About 2 months ago I upgraded myself to L33T which I'm still happy about. I've posted on many UB3R upgrades but still....

-What contributions have I made-

I always try to stay as HQ as I can, which means that:

- I try to type as correct as possible
- Answer questions if I know the answers
- Not scam/troll/flame or hate/piss anyone off.
- Help everyone, which includes not upgraded members

Rs3 Giveaway - [Here](#)

Rs3 Guide for QBD - [Here](#)

huge HackerCraft giveaway - [Here](#)

I've sold in total 3 HackerCraft awards for a decent price.

-What will I do with UB3R-

I'll be able to enter the UB3R section and participate with UB3R only giveaways. Be more trustable in my RsGP shop, and be able to see others warnings points + what they did wrong. And I'll receive my first award! Which will look pretty cool in my opinion. ?

Poisonleaf's Ub3r application

Introduction:

Hiya, My name is Poisonleaf. I've been on hackforums for quite some time now. Not sure how long tough. I'm 23 years old and I'm from Belgium.

Why do you think you deserve the upgrade, and which upgrade do you request?:

I've been a respectful and helpful member since the day I started. I always try to help out or share what I know.

With the launch of the OMC I started a project that today helps over 800 members with their search for OMC. The project has given away more then 10.000 OMC

Have you contributed to this forum, if so, show me some of your contributions:

<https://hackforums.net/showthread.php?tid=3873915>

<https://hackforums.net/showthread.php?tid=4222297>

Last but not least, do you think you REALLY deserve this upgrade based on your activity within this forum?:

I might not be one of the top people on this forum but I've done my fair share of activity here so yes.

Thank you for your concideration and this contest. Goodluck to everyone who enters.

Poisonleaf.

Lol BlueCrack, I guess I will enter this giveaway. I need the ub3r upgrade and was accepted for about a month.

neil5050 - September 22, 2014, 4:47 am

The reason why i should get ub3r.

I been contributing tons of tuts to the High quality hf community. And been helping several members in the hf community. A few Examples of tuts I have created.

1. bypass mobile security on facebook

<https://hackforums.net/showthread.php?tid=4057838>

2. facebook trick to mass post on people's walls without them finding out you did it and they can't block it either.

<https://hackforums.net/showthread.php?tid=4276920>

3. Facebook redirect vulnerability

<https://hackforums.net/showthread.php?tid=4005910>

4. Facebook destroy timeline and crash mobile users (patched)

<https://hackforums.net/showthread.php?tid=4056089>

5. Upload gifs into facebook (2014)

<https://hackforums.net/showthread.php?tid=4010480>

6. Facebook people to log off of facebook

<https://hackforums.net/showthread.php?tid=4016056>

7. Facebook crash other people's timelines

<https://hackforums.net/showthread.php?tid=4050298>

8. adding a picture to a facebook post

<https://hackforums.net/showthread.php?tid=4023064>

9. Host files on facebook

<https://hackforums.net/showthread.php?tid=4015679>

10. Aug 2014 -> post gifs on profile on facebook

<https://hackforums.net/showthread.php?tid=4380533>

and several members on hf have verified these tuts worked on the thread upon releasing them.

I have helped some members via skype when they were lost. On hf almost every day trying to see if I can learn something new. I never tried to scam anyone etc. And it would be really awesome if you selected me to win ub3r (which i got accepted already).

What will I do with ub3r -> insert +3s for people who deserve it.

Who am I?

I'm a simple student studying Ceramic Sciences in a big University. I live alone & I try to earn online

whenever possible to ease out the load on my parents. I have got 3 years of college left after which I would be doing a full time job so there won't be much time left for my fun activities so I try to enjoy as much as I can.

What I do on HF?

I love browsing HF & seeing what other users are up to.

The knowledge present in this site is wonderful. I often regret that I should have joined earlier but nothing can be done about it now.

I read all the highly rated threads & give my help to members whenever they need it.

I like making friends & I have made some good friends here on HF to whom I enjoy talking.

There are wonderful people here & I appreciate all of them.

You hold a special position though about which I'll explain later in detail.

I came here to learn & so far it's been very good.

I am kind, polite & not a bragger.

I haven't got long lists of threads elaborating my contribution but I do praise the members who have.

I just don't do that because almost everything I know & want others to know is already shared here & I can't spoon feed anybody by repeating the same thing which has already been posted.

I do help members through their home-work & explain any problems they have.

I'm interested more in Physics than Computers so often I have many posts in Education Nation & SRPP.

I share my views & opinions without overruling others opinions as it's not good.

I respect people for who they are.

I browse the crypto currency a lot because my first earning came through Crypto.

I have enormous love for this community & it has helped me in shaping my life over the past six months.

Why I should get this?

The answer to this question lies with you.

I can only suggest certain facts to try & make you incline towards me.

I have wanted UB3R from a long time.

I got L33T to give back to the community but Uber will be the real deal.

I have been approved & so have the others I'm sure.

I made some stupid mistakes earlier & I learned from them & since then I have tried to be a better me. I will keep being that way.

I'll keep on helping members like I do now but very soon I'll post some innovative things I have been working on lately.

The odds may not be in favor of me but I will never give up trying.

Contests like these fuel the competition between HQ members & it's great to be a part of it.

I may or may not win but there's always something to learn.

I don't think I'll buy UB3R myself nor do I think I'll ever get lucky enough to win in the random.org contests but that's only because Omni's approval is good but when another HQ member finds you worthy enough for the upgrade then you definitely deserve it.

That is something special & I want it to be that way.

What I think of you?

I am happy that I checked your profile before entering this contest as it might have been the game-changer.

You used to go by the name Fire during first week of August & you were the first guy to post about the Stellar currency in HF.

With that simple well written tutorial of yours & some of my work, I made \$180.

I bought myself L33T & tried to rep you but I couldn't find you & your post got buried by the time I got upgraded.

I have wanted to show my gratitude from that long & I will still do it.

I want to take this opportunity & thank you from my full heart.

You gave me the method to make my first online earning through I which I bought a phone for my father. You increased my interest in crypto currency & now I'm a trader.

I owe you a lot & I shall never forget you.

You are the man, Mango Kush.

You changed my life.

Thanks once again for holding this nice contest.

?

Let's see who you deem worthy of the upgrade.

DearSanta - September 23, 2014, 3:04 pm

I would like to win l33t, after a lot of fake contests and not being choosed by the OP I really hope this time I'm luckier.

If you want to know a little bit about me check this [entry](#) for another contest that didn't choosed me unfortunatley.

Tranquility - September 24, 2014, 11:56 am

When browsing back through this post of mine, I felt pure shame.

Since I am already unable to edit my post, I'll throw in a secondary post.

Name:

Tranquility

Why do I deserve an upgrade and how did I contribute to HF?:

In general upgrades could be like most give-aways and performed through random.org. However, something as delicate as receiving beneficial features on HF, needs a little judging and that's where your personal opinion of the user comes in.

In time I believe I have been quite a decent user in utilising my knowledge and insights in trying to aid fellow members. My knowledge however doesn't extend as far as certain other members who have made exceptional guides, but slow and certainly I too will get there.

Already having built up a little bit of reputation in the Computing section (where I spend most of my time), I believe I could be considered a 'High Quality' member as some may call it. I have no direct links to prove my worthiness, however, a quick glance on the [Windows7/8](#) and [Smart Phone sections](#) might enlighten you to what I am providing to the community.

Having made a little bit of cash through user support, I will in return upgrade a user when I would receive the gift of L33t (and possibly in the future Ub3r) back to the community. Still believing in the philosophy of "sharing is caring".

Good luck in your selection Mango Kush, I have seen quite some good candidates (competitors) myself!

Hello Mango Kush,

I'm replying to give my one chance towards this wonderful upgrade that I can't afford right now. I'm

assuming you'd want to know why, I can't do anything because it's limited and paypal likes doing that. So I decided why not give this thread a shot because I know if I try I might even succeed. As I'm writing this I'm thinking of multiple things of what I would change if I was I33t. I'm brainstorming of types of things to give back to the community and the amount of help to give to members. Personally, I'm trying to help people in certain sections of the forum and most of them are in PM. Do I deem myself required for this contest? Yes, I strongly think that I fit the requirements. I'm high quality but I do try to help others whenever I can. I'd have to say that I'm active but not highly active because I do have a education to attend. Have I done any recent giveaways/give backs to the community yet? Nope but I do plan to. Well, I hope this gives me a shot towards this I33t upgrade and I thank you for this contest and it's a chance for regular members like me to aim for this upgrade. ?

Best regards, Kamek.

Enjoy a song while you take the time to read my application Spoiler ([Click to View](#))

Name: Eges

About me:

I am 15 years old turning 16 in December. I've been a member on HF for a while now. I used to just look around on HF years before but didn't make an account until 2012. I came here to learn about cryptography but stayed because of the great community. I normally browse the lounge all day long but i used to be very active in the League of Legends section and the hacking section to help out members with problems that they had. I'll most likely be back into the League of Legends section pretty soon (once i get my Windows. Currently on a mac) and i'm starting to become active in the beginner hacking part of the forum just helping members out with problems they have.

Reasons why you should pick me:

I think i deserve to win because i have given to the community before. I have hosted a paypal giveaway a while ago (<https://hackforums.net/showthread.php?tid=3954697>) and if you check my old posts you'll notice i used to help out in the beginner hacking section. You'll notice that almost all my rep is positive and the only negative reps i have are 2 reps. One from a HUGE scammer, who scammed me and then negative repped me saying i was "being impatient" when he didn't deliver in the time period he promised. Keep in mind he didn't deliver at all and he has over 10 scam reports. The other -rep i had was from a Hackforums teamspeak user who was infuriated that i did not want to give out my profile so he managed to find me and -rep me. Keep in mind that he's banned. Another reason i believe i should win is because my UID is 1333378. My UID practically spells l33t xD. I would like l33t because i feel as a normal member most people don't care what i have to say and disregard my post. I've also had members scam me and it's a lot easier for them to scam me because i'm a normal member and they think they can take advantage of me because i can't leave a rep to a scam report or anything like that. Another reason why i think i deserve to win is because winning l33t would give me another motive to contribute something else to the forum. It would be a motive for me to help more members and overall just contribute more. I also would not forget about the normal members and would not disregard their opinions because i know the feeling and because i have been a normal member for a long time. Another reason is that i have helped many members set up their rats and JDB's back when i was active in the beginner hacking section. I've worked with some other upgraded members on projects on HF like a doxing service but i would not be mentioned in the sales thread because being a normal member they thought it might make the service seem less trustworthy so i had to stay in the background and just do the requests i was given. Becoming a l33t member would be really awesome and i would forever be thankful.

My ending statement:

Thank you for hosting this contest which gives me a chance to get l33t. I appreciate you reading through my application and i really hope you pick me. I've been waiting for this a long time and it would mean a lot to me if i was actually picked. ??
