Thread: [Anime with overpowered main characters](#)

Diji - September 23, 2014, 11:49 pm

I'm looking for anime where a main/important character is overpowered in some way and it's apparent from the start.

For example, here's stuff I've seen that fit what I'm looking for:

No Game No Life - Sora & Shiro
Problem Children Are Coming from Another World, Aren't They? - The main characters
THE UNLIMITED Hyobu Kyosuke - Hyobu
Hayate the Combat Butler - Hayate
Death Note - Kira & L
Terror in Resonance (Zankyou no Terror) - Nine & Twelve
The Irregular at Magic High (Mahouka Koukou no Rettousei) - Tatsuya
Hamatora the Animation - Nice
A Certain Magical Index - Accelerator
Btoom - The main character
SAO - Kirito
Log Horizon - Shiroe
Hellsing - Alucard
Blood Lad - Main vampire character
Blue Exorcist - Son of Satan
Black Rock Shooter - BRS herself
Hidan no Aria - Mr. Dodges Bullets In Real Time
<http://myanimelist.net/animelist/chdata>

All of these anime are very very different in genre, but the main characters all have something that makes them much more skilled than people normally are whether it be their intelligence or their strength.

What I'm not looking for:

Anime where the main character starts out relatively normal and becomes OP at like the last episode / many episodes later.

Hello, but I have come to tell you the tale of our lord and savior Jesus Onii-sama.

Well not really, I could spend my time here writing some tale but it's better seen first hand. Want a OP character? Check Mahouka and join the religious group of Jesus Onii-sama followers.

Spoiler ([Click to View](#))

It may not be very apparent as it starts but you'll understand it soon enough

Top 4 Will be -

Ichigo - Naruto - Natsu - Luffy

All these 3 were over powered from start! Character development for other side characters are very low, but for these 4, they are freaking over powered!

NextGenUber - September 24, 2014, 12:36 am

If you're looking for a longer anime maybe Hunter X Hunter (2011) could work for you. If you get past the first few episodes it really is a great anime. (there's a reason its ranked in the top 10 on MAL)

Also, people will hate me for recommending this but another anime with an OP character is Sword Art Online. Now, before people come at me for recommending SAO just think about what hes looking for. Also, its a decent anime, not great, not a master piece, but still good.

I haven't seen Natsu and will look into that...

But for all the other ones none of them are what I'm looking for because none of them feel like these super dominantly powerful characters until like a hundred episodes later - and even then they aren't really dominant or extremely overpowering against their opponents much of the time.

Not looking for character development. Though I do like those anime, I'm not interested in watching stuff like that lately.

On that note, Dragon Ball / Shaman King are also not what I'm looking for.

@NextGenUber

I've seen SAO, it didn't come to mind when I thought OP chars but I suppose it does fit the criteria.

I might as well say now that Log Horizon and Blood Lad count too.

I'll see Hunter X Hunter. I saw like one fight on youtube and it seemed sorta okay, and always hear a lot about it.

Haggo - September 24, 2014, 12:53 am

Akame ga Kill, main character not super OP, gets schooled by assassins then joins them. Super brutal, fast paced, not tons of trash talk for a 20 second fight scene. Love it.

Interesting request, and yes your genre's are all very different lol but you could check these out I suppose.

[Blue Exorcist](#) (though I can't remember how "op" he becomes)

[Hunter X Hunter](#) (This just makes sense)

[Deadman Wonderland](#) (the MC is like what you're looking for in this.)

[Mirai Nikki](#) (anyone who has seen this including the sequel redial would understand why I'm listing this as an OP character in the end lol)

[Ga Rei Zero](#)

Diji - September 24, 2014, 1:47 am

I've seen Akame Ga Kill, Blue Exorcist, Deadman's Wonderland, and Mirai Nikki.

Will check out Magi and Ga Rei Zero though.

I feel like there's one ESPer/psychic power one I've heard of but haven't watched yet... I've seen the Certain Magical Index/Scientific Railgun series with Accelerator... ;O

I've been on track with Tokyo ESP this season, jsyk.

I've been on track with Tokyo ESP this season, jsyk. Ah I really liked Certain Magical Index I'm currently watching Railgun right now, and by far I do have to say Accelerator is one of my favourite characters especially because of how much character development they gave him through the series. If you find out that other anime similar to those two let me know, and I'll check it out.

Diji - September 24, 2014, 2:01 am

Well, Hamatora the Animation is ALOT like toaru is. People with powers in a scientific community where these people are higher in society due to these powers.

I'm only one episode into "Zettai Karen Children: The Unlimited - Hyoubu Kyouzuke", but it's also like toaru based on it (with psychic powers and whatnot - the first character you see is like another Accelerator but with different ability and a different personality type).

There's also Psycho-Pass. Not really psychic powers at all, but it's a society with a clear hierarchy based on how psychologically sane and capable you are. Of course, there's geniuses in there too.

?Tet? - September 24, 2014, 2:07 am

Awesome I just checked it out on MAL I added it to my list I'll check it out after I'm done with Railgun, Thanks

Diji - September 24, 2014, 2:13 am

I forgot to say this about psycho-pass...

Like toaru, there's a sinister/unknown secret behind the entire society that the masses generally don't know about.

Sasami-san@Ganbaranai, although it's a very 'unique' anime in some aspects so I can't guarantee that you'll like it.

Kiba - Zed (Doesn't start OP)

Suisei no Gargantia - Chamber (Starts OP)

The story's decent. I can't get past the MC though. I tried marathoning the entire series while I was on a plane ride. I marathoned up to episode 14, when I just couldn't take Mr. BitchfaceMC anymore...

Both the heroines are drawn really nicely btw, which was the reason I was drawn to the show. It's sad that I had to drop it halfway.

Yea, Kuroyukihime is awesome, definitely in my top favorite characters. Well, perhaps you might want to pick it up soon, there might be an announcement soon for season 2 in October 5(Might, it's just an hypothesis), I've read the novels and season 2 will be the best part of the light novels up to date, which is when MC goes berserk.

PS: I'm at episode 14 of Code Geass R2, better than the first season so far although I still find a 9 a bit overrated

Diji - September 24, 2014, 7:09 pm

But anything like that usually is something where the MC only becomes op after years of (50 episodes of) training. Looking for stuff where it's apparent at the start.

Regardless, a lot of nice suggestions so far.

Anyone know of anymore anime with "OP geniuses"? People like Accelerator who calculate quintillions of individual vectors between atoms, or Twelve&Nine who are seemingly control of all sorts of psychological factors at once.

Also yeah I've seen Accel World. Doesn't really fit what I'm looking for because he only becomes OP like halfway through the entire anime.

In my opinion I would recommend watching toyko ghoul. The first season kaneki is pretty weak and unsure of himself but at the last episode he becomes insanely op. They have also released a second season called Tokyo ghoul root A. In this season kaneki is much more op. It does vary from the manga so I would also recommend reading that if you haven't.

Also yes I do know VYKTOR had already mentioned this but I thought I would mention it again because he had mentioned it before the second season had come out.

how is goku OP again? The only one he actually killed alone was buu and it was with a damn spirit bomb. Goku is one of my favs but to say he's OP in dbz is sooo wrong. You must be counting toei filler movies or something.

Fairy tail: (etherious) Natsu-dragneel

Natsu is just overkill.

just look at the anime, absorbing a huge fusion of magic and making it his own, isn't that overkill

Akame. - June 9, 2015, 2:54 pm

Lyrlei - June 9, 2015, 3:56 pm

Yes he is but is there a character that could even possibly EVEN TOUCH Madara Uchiha? Let alone defeat him. And I'm not talking about Edo Tensei Uchiha Madara. I'm not talking about Gedou Rinne Tensei Uchiha Madara either. Hell, I'm not even talking about Juubi Jinchuuriki Gedou Rinne Tensei Uchiha Madara with the Eternal Mangekyou Sharingan and Rinnegan doujutsus (with the rikodou abilities and being capable of both Amateratsu and Tsukuyomi genjutsu), equipped with his Gunbai, a perfect Susano'o, control of the juubi and Gedou Mazou, with Hashirama Senju's DNA implanted in him so he has mokuton kekkei genkai and can perform yin yang release ninjutsu while

being an expert in kenjutsu and taijutsu. I'm also not talking about Kono Yo no Kyuseishu Futarime no Rikudo Juubi Jinchuuriki Gedou Rinne Tensei Uchiha Madara with the Eternal Mangekyou Sharingan (which is capable of Enton Amaterasu, Izanagi, Izanami and the Tsyukuyomi Genjutsu), his two original Rinnegan (which grant him Chikushodo, Shurado, Tendo, Ningendo, Jigokudo, Gakido, Gedo, Bansho Ten'in, Chibaku Tensei, Shinra Tensei, Tengai Shinsei and Banbutsu Sozo) and a third Tomoe Rinnegan on his forehead, capable of using Katon, Futon, Raiton, Doton, Suiton, Mokuton, Ranton, Inton, Yoton and even Onmyoton Jutsu, equipped with his Gunbai(capable of using Uchihagaeshi) and a Shakujo because he is a master in kenjutsu and taijutsu, a perfect Susano'o (that can use Yasaka no Magatama), control of both the Juubi and the Gedou Mazou, with Hashirama Senju's DNA and face implanted on his chest, his four Rinbo Hengoku Clones guarding him and nine Gudodama floating behind him AFTER he absorbed Senjutsu from the First Hokage, entered Rikudo Senjutsu Mode, cast Mugen Tsukuyomi on everybody and used Shin: Jukai Kotan so he can use their Chakra while they are under Genjutsu. I'm definitely NOT Talking about sagemode sage of the six paths Juubi Jinchuuriki Gedou Rinne Tensei Super Saiyan 4 Uchiha Madara with the Eternal Mangekyou Sharingan, Rinnegan, Mystic Eyes of Death Perception, and Geass doujutsus, equipped with Shining Trapezohedron while casting Super Tengen Toppa Gurren Lagann as his Susanoo, controlling the Gold Experience Requiem stand, having become the original vampire after Alucard, able to tap into the speedforce, wearing the Kamen Rider Black RX suit and Gedou Mazou, with Hashirama Senju's DNA implanted in him so he has mokuton kekkei genkai and can perform yin yang release ninjutsu while being an expert in kenjutsu and taijutsu and having eaten Popeye's spinach. I'm talking about sagemode sage of the six paths Juubi Jinchuuriki Gedou Rinne Tensei Legendary Super Saiyan 4 Uchiha Madara with the Eternal Mangekyou Sharingan, Rinnegan, Mystic Eyes of Death Perception, and Geass doujutsus, equipped with his Shining Trapezohedron while casting Super Tengen Toppa Gurren Lagann as his Susanoo, controlling the Gold Experience Requiem stand, having become the original vampire after having absorbed Alucard as well as a God Hand, able to tap into the speedforce, wearing the Kamen Rider Black RX suit, with Kryptonian DNA implanted in him and having eaten Popeye's spinach while possessing quantum powers like Dr. Manhattan and having mastered Hokuto Shinken.

kakarot007 - June 17, 2015, 5:53 am

F0rsak3n- and do you think madara can even see goku :p . let alone touch him . Do i have to remind you how fast and powerfull goku is and he can sense the ki of the opponet too. No need to see madara in the eyes . Let alone spirit bomb and super saiyan forms . Ok let alone goku . Let's make it villain vs villain :D .

tell me how can madara destroy kid buu . or can even damage him a bit :p (regenration powers) . Majin buu can also learn anyone's skills (majin buu learned the kamehameha) . Majin buu can absorb madara too .

and if you still think that madara can defeat them , then maybe i should bring Lord bills for the fight . He is clearly the winner .

newbielol - June 17, 2015, 9:22 am
