Just loaded it on my PC and VPS, what page are you sent to?

Shironome - September 24, 2014, 1:04 pm

Website is up for me. Maybe it's your side?

Ghostwork - September 24, 2014, 1:50 pm

Alright we are back up now, sorry for that downtime. Was an issue with our host and someone skidding out, however all is solved now.

Hire - September 25, 2014, 12:43 pm

Alright, i guess i'll sign up now.

I'll see you there :p

Drop your name here or PM me once you have :D

CyanogenMod - September 25, 2014, 1:27 pm

I'll take a look, the last 5 new forums I've signed up for have gone down within a span of two weeks.
