Thread: [\[Photoshop\] Clean, Simple, Cool Avatar](#)

Centuries - September 24, 2014, 4:10 pm

Hello! I see you want to see how to make a Clean, Simple, and Cool logo :).
Well first things first you will need: Neon Style

Photoshop

Download list:

I can not supply Photoshop sorry.

Neon: [Download Link](#)

Lets begin:

First open a new project, the size will be: 120x120 pixels.

Add a new layer

Now color it in. (Color I used is 51,51,51)

Spoiler [\(Click to View\)](#)

Now add your text

You can add a style to it

Now drag it below the pic

Spoiler [\(Click to View\)](#)

At the bottom hit enable timeline and the 3 squares that says Animate

Spoiler [\(Click to View\)](#)

Now create a new frame (the page button)

You will see under the 2 frames you have something that says "5 sec" click the drop down arrow and hit "No Delay"

Now in layer 2 drag your text up

Spoiler [\(Click to View\)](#)

Now create another layer

In this layer drag it all the way off (Make sure it is set to No Delay)

Now hit CTRL and select Layer 1 and 2

Hit the button with the circles

Spoiler [\(Click to View\)](#)

Now type in 50

Now select the last 3 layers

Spoiler [\(Click to View\)](#)

Now click the circles again and add 52 (if circles doesn't open just click the 2 right before the last frame)

Spoiler ([Click to View](#))

REMEMBER TO CLICK LOOP FOREVER

Now go to file > save for web > At the top preset should say GIF 64 No Dither then at the bottom hit save :) upload it somewhere and enjoy!

I KNOW THIS ONE GOES UP WAY FASTER THAN MINE, YOU CAN EDIT THIS BY THE AMOUNT OF FRAMES

Abstractionz - September 28, 2014, 12:02 pm

thanks! tutorial could be laid out a tad better, to be easier on the eyes, but simple and efficient all the same :)

Outer glow is outdated in my opinion.

If anyone decides to do this, try some sweet font without the outer glow.

I just downloaded a style that was bright and that I liked.

This is not a logo? It's an animated text..

You know the timeline animation is a lot more fluid, and if anything easier. Click the button in the bottom left corner of the animation panel.
