Thread: [Can you guys help me make a private shell booter+shells](#)

Adam12XX - September 24, 2014, 11:12 pm

I really want to make a shell booter and ddos people but i do not know how if any of you guys could help me i would find it great also i will need some shells so can you make me some shells and teach me how to make the shells - UDP Shells

Thanks!?

Xenious - September 25, 2014, 9:25 am

I can code you the booter but you have to give the shells, So get shells first then reply or pm me

Just go buy a stresser, it's easiest thing you don't understand the field you're trying to get into but need ddos for home connections. Use a booter and do personal research on everything.

Hi, here nasheron and i'm selling access to my private booter. Hitting +5Gbps , prices can be negotiate , this is not public stresser, is private so the power will be the same everyday.

my skype: Nasheron.Network

Regards

Quit copy pasting advertisements for your 'booter'. If it's not public than quit posting like this.
