Thread: [FPS Russian isn't even Russian?](#)

zSerity - September 25, 2014, 9:45 am

Am I the only one who didn't know this?

[Video: <https://www.youtube.com/watch?v=kesqTU-jwsE>]

I thought he was trolling at first but if you watch the whole thing he actually explains he's not Russian, it was a fake accent the whole time :/

This is like finding out santa claus isn't real.

I haven't watched his video in a while, so maybe this is old news.

Mikes - September 25, 2014, 9:55 am

holly fuck I never thought about that lool

AMAVI - September 25, 2014, 9:57 am

Oh iv knew this for a longtime, most people know he isn't russian, he's american + when he went in vlogs of other youtubers, sometimes he broke character and what not.

shreder - September 25, 2014, 9:57 am

Yeah i knew this a while back i mean it was pretty obvious he tried to hard.

Aliasllias - September 25, 2014, 9:57 am

Whut, I thought he was from Russia, just like you...

Lone - September 25, 2014, 9:59 am

Not to sound like an asshole but I thought it was obvious? or at least it was to me, his fake accent was weird. Still I don't watch him because of his nationality I just love guns.

zSerity - September 25, 2014, 10:00 am

But his Russian accent was so good.

I wasn't a huge fan or anything, I'd only watch his video every once in awhile which is probably why I didn't find this out until now.

Approach - September 25, 2014, 10:00 am

Kyle Myers.

It's clearly stated on his Wikipedia page: <http://en.wikipedia.org/wiki/FPSRussia>.

Idk it kinda ruins it for me, the whole Russian thing was bad ass imo.

DrDoof - September 25, 2014, 10:00 am

No freaking way, he doesn't look like a russain when he's not using the accent. :s

Gummy Bear - September 25, 2014, 10:01 am

Wow, I actually didn't know that lol.

??\$?? - September 25, 2014, 10:02 am

Grin - September 25, 2014, 10:45 am

Hi,

Yeah. If you read like an article about him, he isn't actually Russian.

Spyro The Dragon - September 25, 2014, 10:46 am

FPS Russia is FPS Kyle lmao.

It's been known for years. ?

Quote from his wiki page:

"FPSRussia is a popular YouTube channel consisting of videos involving firearms and explosives. The videos feature Kyle Myers, an American born in Lavonia, Georgia, playing the role of Dmitri Potapoff, a heavily accented Russian."

EDIT: I'm genuinely amazed that people are only just finding this out.

OhMyQuad - September 25, 2014, 10:46 am

Wasn't he used to be called FPS Kyle too?

alonalon - September 25, 2014, 10:48 am

I didn't know he isn't russian, what the hell...

Mac - September 25, 2014, 10:53 am

This was obvious right from the beginning.

Vouch.

His accent isn't even that good if you think about it xD

Gt403cyl - September 25, 2014, 10:57 am

Yeah I knew from way back the whole thing is a play on words.

He's a "professional Russian" an actor that does a very convincing Russian character.

Yeah when he posted the FAQ and spoiled it for the people who thought he was Russian there were sooooo many comments about it.

But hey now you know!

Raf Simons - September 25, 2014, 11:52 am

If you actually believed he was Russian, you're gullible as fuck.

Regardless - September 25, 2014, 11:57 am

I didn't know it, but it's obviously a persona he liked to use. Everyone has one, especially YouTubers

He still is FPS Kyle, if you watched WoodysGamertags camping videos where him and Kyle go out camping and try to live only off the land for a week, he puts a black bar over Kyles face that way people couldn't see it was FPSRussia this way he wouldn't be recognized and lose his partners.

Black Diamond - September 25, 2014, 12:11 pm

I always had a feeling his accent was the result of trying to hard to emulate a real russian accent.

But I never took the time to figure any of it out, but now I know lol.

joneh heil - September 25, 2014, 12:18 pm

I didn't know that. But the accent is too clear if you think about it, trying to hard :/

Cryptic Blue - September 25, 2014, 1:19 pm

Old news.. How did you not know this.. --.

He B TeMy - September 25, 2014, 1:30 pm

Feels weird to hear him talk like that.

Oh well, I was into his videos a lot in 2010 but it is just boring now; grew out of it I guess.
