Thread: [\[ALL\] Contest for Skype BETA API](#)

Idolize - September 25, 2014, 2:39 pm

Hello so I'm pretty new to making contest's for people so here we go, I'm in need of some banners to advertise my Skype resolver, I would only like one but people can join as they wish, The winner will get a free lifetime Skype api, with unlimited resolves! No reselling though! or you will be banned. I would like the banner to be 500px Wide and 150px height. Any colours! gifs do have a higher chance of winning!

Banner Info:

Title: SkypeResolve

Features: Skype resolver, beta, free, fast, own servers!

Here is an example for anyone who's stuck.
