JonBD - September 26, 2014, 10:52 am

It doesn't matter how many times you post, your chances will not increase.

Probability time.

For instance: 1/5 ([Click to View](#))

1 being the first entry, and the 5 includes yourself and 4 other entries from several individuals

You return to the thread later and 5 more people reply so your chances drop to 1/10

Surely if you posted again (making the probability 2/11) then mathematically, your chances increase.

This can be my third entry :P

You assume I will be using post # to pick the winner...

I'll clarify it on the thread.
