Watch [here](#)

My opinion on this anime after watching the first episode is that it is fucking epic.
I highly recommend you watch it. There is only 1 episode at the moment.
As well I don't want to seem like a baby but the first ep honestly made my eyes teary.

Any manga discussions in spoiler tags please.

you're judging it to be as good as something else based off one episode?
c'mon man wait a little while before comparing the two, this could end up being complete shit later on...

Haven't seen it just a little blown away by your reaction...

Diji - September 30, 2014, 2:11 pm

Based on one episode I don't like the art style much and don't think I'll be able to stand watching it.

Duyere - September 30, 2014, 4:21 pm

Based on the first episode, I found it to be quite enjoyable. I feel like it could be promising, but then again you never know. It could turnout to one big blowout. Way too soon to tell, but let's keep our fingers crossed!

Tedeschi - October 10, 2014, 4:49 pm

Really liking this anime so far just finished episode 3. Not sure why it's got bad ratings.

Yoko_ - October 10, 2014, 4:56 pm

I really like the manga, haven't tried the anime yet though. The reviews look kinda bad.

It's terrible compared to the manga, That's where most people are basing it off of.

EDIT: Forgot to add... Censors. Nuff Said.

The censors. It's like they don't even try. It's a literal circle.

eight - October 10, 2014, 11:00 pm

bahaha, this is complete shit. I'm sure it's zyvox's favorite for the season.

Mikoto Urabe - October 11, 2014, 1:20 am

Maybe they are testing what to censor instead of giving us a black screen through it all, either way the latest episode was pretty good aside from not showing the good parts ><

Diji - October 12, 2014, 10:35 am

Pillows: Episode 3 is now here.

This anime is like Tokyo Ghoul censoring on steroids.

I really enjoyed episode 1, but then it started to go from GREAT to ehh...

Just curious now as to what kind of animals/bugs DNA they have infused with humans...

It explains that pretty clearly, sure there are some flaws but I'm sure everything will be revealed eventually.

Spoiler [\(Click to View\)](#)

Bugs 2 (One of the first missions to mars) was composed of a group of individuals who were infused with eh.. I don't know exactly but I remember seeing someone shoot out peroxide or something out of his hands.

Now, the "generals/commanders" or whatever are infused with special animals meant to hunt cockroaches.. Or at least one of them is if you've seen the last episode xD

Tasemu - October 19, 2014, 4:48 pm

Considering picking up this series. But i have heard so many mixed reviews. can someone just give me a black and white opinion on it so far?

Pillows - October 24, 2014, 4:45 pm

Spoiler [\(Click to View\)](#) So is this how the anime is going to go on? Kill off everyone one by one?

VGM2021 - November 15, 2014, 2:39 am

Episode 8 was very good.

Good backstory on adolf and I can predict whats going to happen later on in his story :P

Acid Spectrum - November 28, 2014, 1:52 pm

I fucking love this shit, they even released the 2nd OVA showing the story of Bugs II.

11ash1 - November 29, 2014, 2:41 pm

It is ok but not worth putting on the top 10 list.

NextGenUber - November 30, 2014, 7:43 pm

I didn't have high hopes for this anime based on its description but I've been watching it every week and I gotta admit, it isn't that bad. I really enjoyed the back stories on Adolf and his character overall.

Turns out I decided it's interesting enough to watch. The whole emotional outbreak stuff is kinda meh though.
