Thread: [Truzzie's Upgrade Contest | One every week | Normal - L33T - UB3R](#)

Truzzie - October 3, 2014, 3:03 am

Keep entering guys, one winner every week!

Alright so I have decided to upgrade one member every week.

These upgrades goes straight out of my own pocket, I work and I have good salary so I wish to share with those who can't afford it.

Put some effort into it guys, it is easy to see if you're serious or not.

I will also need a banner and a signature for this thread and would appreciate if someone could make one.

Hi,

i'd like to join this !

I've been a member here for quite some time and i'm always trying to help people, that's what makes me feel good, the utmost reason i need the upgrade is because i'm currently unemployed trying to find a job, and i've been unable to.

This would really help and make me feel a little happy :D

Hope you get my feelings ;p

Name: Psycho'

Why do I deserve this?: I believe I deserve this, as I try and help out fellow HF members whenever I
can, and also try and stay high quality. I like to make new friends within the forum, and have a chat
with them, so I think I could consider myself quite a friendly user.

About me: I am from Australia, and enjoy playing video games, and talking to people. Nothing else
really which is too interesting.

Why I want it: I want this upgrade as I have no online money currently, and I feel it would make me
more trusted within the HF community.

Thanks for taking the time to read this man, good luck to everyone who enters!

severos - October 3, 2014, 7:09 am

I'd like to get upgraded to leet if possible please.

-About me:

I'm 19 about to become 20, going to start my second year engineering at university in couple
weeks, I have endless interest in hacking not limited to PC hacking, but I only have knowledge in PC
hacking since it's the one with most resources available and easiest to get the fundamentals for
further learning (I have interest in mobile networks, traffic lights, or anything that goes with electric
circuits), and total ethical hacking.

I've been around the forums for a while, I've helped couple people in the hacking section (too bad
my knowledge isn't too much to help with more than some basics), also I keep an eye on crypto
currency section since they're really interesting (it's one of my favorite sections, but doesn't have
activity as much as other sections), I also did OMC giveaway, and going to do another one once I
get more OMC.

-Why I deserve this upgrade?

Well I'm not really sure if I deserve it more than others, I do try my best to give quality posts but, lots
of people would help more with the upgrade, so if I got upgraded I'll have to do my best to help
others in their place, but the main reason I can't upgrade is because I'm university student so I'm not
allowed to work while studying (don't think university will give me permission to work if I told them I
want leet upgrade ?)

Hope I didn't put too much useless info there ? and I'm not good with colors and stuff so excuse my plain text reply.

Again, thanks for your upgrade contest, and gratz to whoever gets upgraded??

Can I enter the contest? (400th post :D)

I try to be a kind helpful person, in random sections. I didn't do giveaways as I have nothing of value to giveaway (Which is the reason I can't buy L33t.) My negative reps don't have a good reason (Check them out).

If I get the upgrade people pay more attention to my posts, and I'll also be able to giveaways next year.

I am learning web design, coding, and hacking here on HF.

I like chicken.

-Why do I deserve this UB3R upgrade?-

First off all, I'm always trying to be as HQ as I can and never scam/troll/flame or piss anyone off. I'm member since October 2013 which is almost 1 Year now. About 2 months ago I upgraded myself to L33T which I'm still happy about. I've posted on many UB3R upgrades but still....

-What contributions have I made-

I always try to stay as HQ as I can, which means that:

-I try to type as correct as possible

-Answer questions if I know the answers

-Not scam/troll/flame or hate/piss anyone off.

-Help everyone, which includes not upgraded members

Rs3 Giveaway - [Here](#)

Rs3 Guide for QBD - [Here](#)

huge HackerCraft giveaway - [Here](#)

I've sold in total 3 HackerCraft awards for a decent price.

And lots more!

-What will I do with UB3R-

I'll be able to enter the UB3R section and participate with UB3R only giveaways, Be more trustable in my RsGP shop, and be able to see others warnings points + what they did wrong.

And.... I'll receive my first award! Which will look pretty cool in my opinion. ?

I can not really convince you as I'm just a normal member, but I would like to be upgraded as I've been member of the community for quite a long time now, and I think it's time for me to get upgraded.

I like helping people and being helped by people of course. HackForums has been and is a great source of information for me. I don't flame people that post easy stuff because I have been like that too. Although there are many users who DO flame new users. I feel like I'm out of the "new zone"

now and if I upgrade/ am upgraded I think my HF experience will get even better AND I will be even more appreciated, so HF will be an even larger source of information for me.

Thanks for this giveaway, I appreciate it a lot.

I hope I win ?

-RGH/JTAG help in the jtag section

-Help people get their 50's on halo 3 for free on HF.

-Give people free exp on halo 3 on HF

-I will soon be hosting free lobbies on MW2 and MW3 for HF

- I will soon start hosting black ops 1 and black ops 2 modded zombies lobbies for free for upgraded members because they are super fun to play in.

Why I should be UB3R

I think I should be UB3R because I do many services (free and paid) which help a lot of people out. When I am UB3R it will also help with my shop so I can edit the thread whenever I can to notify people if I am available or not available to do recovery's and I can also delete threads with UB3R. I can also participate in UB3R only giveaways that many others host and access the UB3R section. I also would love to be able reward people with rep when they are helpful to me or other members. I also want to be able to leave rep on scammers to stop them from scamming other members. Hack forums has taught me and helped me in many ways. I have gained a lot of knowledge in jtags/rgh's. I also learned many things about rats and keyloggers. I would like to give back to hackforums and get UB3R but I do not have much money. My recovery service isn't to make profit, but it is too help the community. All the money from my recovery service goes back to buying kvs to do more recovery's. I will be using this upgrade to help me and the community. Thanks for reading my application and I hope you accept me.Black Hat

I would also like to say thank you for hosting this giveaway. I have seen many contests for being upgraded and some of them have been fake. Your one legit guy and I would like to say thank you again. Good luck to all who posted applications and I hope you guys get accepted too.

I would love to upgrade to I33t. I really enjoy helping all the members in the computer part of this forums and plan on expanding my knowledge. This upgrade would allow me to be apart of the specialist group and my knowledge in computers would be achieved.

Tabs - October 4, 2014, 4:11 pm

i would like the I33t to ub3r

I don't have a Phone, bank account, paypal, or anything like that. I usually offer my services for free, until a point where i really, really wanted to become Ub3r.

I saved up BTC for months, and months. I did designing jobs, from Signatures, to web designs.

I didn't make alot of money with it. Maybe \$0.10 for a signature, and a few bucks for a Web Design.

After months of designing, doing little jobs, leveling up LoL accounts to level 30, and selling them for \$1, i finally got \$20 in BTC. I then contacted a really good friend of mine, called Money Maker Mike. I talked to him for a long time, and i really trusted him. I then made a deal with him. I sent him the \$20 BTC, and he would upgrade me. Without me knowing, he sold his account on VHF. I lost my \$20 BTC, and my months of working and getting money. I was done, just done. I did so much, to make a little amount of money, and someone just took it away from me, within a few minutes. But still, i was dedicated to getting Ub3r. Till today, i'm still trying to get it. I got a whopping \$1.53 in my BTC wallet at the moment.

PROOF i was accepted:

What upgrade do you want? : Ub3r upgrade

Tell me about yourself : I'm a high school student and college student. I work at a car wash trying to scrape up extra money to pay rent. I know how to code most of Java and have started a netflix/spotify/minecraft business with a friend of mine. But sadly I cannot start a thread about it because of not being Ub3r. I want to be someone big in the community. But i'm trying. It's a struggle and i'm on my way.

What upgrade do you want?;

I would like the L33T to UB3R upgrade :)

Tell me about yourself, convince me to choose you and be honest;

Im a 17 year old student from Norway, i enjoy skateboarding in the summer and snowboarding in the summer, but i also enjoy doing Graphics for others in need. Gaming aswell of course, hehe :-)

Honestly, ive always strived to help others with what they need or want. Ive been an HQ member of hackforums since late 2011, since then i have been helping others wether it is setting up their servers, managing their online server for FREE. Doing TONS of graphics requests for free (Check my rep or posts) but ive never really asked for anything in return, since it has always been a hobby for me. Which i enjoy doing, i enjoy making people happy. But rarely get anything in return, although a few rep points or a returned favor once in a while is nice, and does make me happy aswell. But UB3R would be a nice touch, and a step forward for me. In terms of gaining trust, being able to share my opinion better with a (+3 or -3)

I really hope to get the upgrade because i cannot afford it at the moment, and im so happy people in the HF community take care of eachother and help eachother out (Some dont, but most do)
Honestly, HF is probably the greatest community on the web, with so many people with different skillsets. It is truely amazing, thanks for contributing to the community.

Hello my name is 'Maple and I am 17 years old. I have many hobbies such as playing football (soccer), watching shows/movies, programming, and believe it or not helping others. I am currently attending college and am getting my Bachelors Degree of Technology (Software Development). I've been a member of HackForums for almost 8 months and love it here.

Why You Should Pick Me

Within the time I've been here on HackForums I've helped members more times than I can count in different areas such as with Java, RATs, Keyloggers, and more. I've done some smaller giveaways that I won't post but the reason that's all I've done is because of college. I'm a friendly member who's always here to help, just PM me. Wow man, I've just seen this, I hope it's not too late.

I want to get uber upgrade mate.

I live in Balkans, I'm a member since 2010. here on HF, and I'm mostly helping members, FOR FREE of course, I'm doing graphic requests and some other favors too. I applied and got approved for uber not long ago.

The reason why I applied is that I don't charge for my services, and that means that I don't have income at all, so basically I won't be able to buy it myself, unless someone else gets it for me. A friend bought me L33t here on this forum because I did some graphic services for him as well. I can see the requests in uber section, and when I want to help I mainly contact members via PM. So basically, by providing me with uber you're helping others get free favors from me. I don't have 400

posts, that is the only bad thing here. Hope you'll understand me.

Truzzie - October 7, 2014, 10:28 pm

Keep the applications coming, friday is only two days away!

VYKTOR - October 8, 2014, 7:57 am

I had subscribed this thread since the moment you made it but I didn't apply since I was waiting for the right moment.

I think it's now that I post my entry here & let you judge it.

The members who applied before me & got upgraded definitely deserved it & that has encouraged me.

V?K??R's Entry for UB3R Upgrade

About me:

I'm a college going student pursuing a graduate degree in Ceramics Sciences. I'm in my IInd year & my graduation will be finished by the next two years. I saw HF way back in 2011 but I didn't join as I was afraid that I could get hacked since I was a noob (I'm still one ?)

I don't excel in any particular field because I am versatile.

I play a lot of games, I've been involved in many outdoor sports, I'm part of an NGO that looks over & provides funding for the education of unprivileged children, I have knowledge of intermediate coding in Java, C & VB , I trade crypto currencies & I watch animes as well as various other TV shows.

I'm learning more of VB.net & Web development at the same time so that I can build my own web applications & softwares soon.?

I'm an article writer at Hubpages too though my earnings aren't very flashy.

I also answer many questions on Che-g-g & have made some good money from that.

That's pretty much the things I do apart from HF & my college.

What I do on HF & for the community?

Most, if not all, of my threads are usually queries to what the community is upto. ?

What's important are my posts.

I usually am never able to make a good thread because my knowledge stems from this site & what I want to share to others is already shared so I don't make another thread as it will lead to spamming.

But I'm also against spoon-feeding information. I promote the new members to see the knowledge contained within this site & absorb it.

As for the members who still need help & guidance, I show them the way whenever I can.

I put the links of the thread that should help them in my post & offer my own help most of the time. ?

I have more knowledge of Maths & Physics than computing but I'm a fast learner.

So you'll see I help a lot of members in the education nation if they are not already helped by somebody else.

I also give my advice in Innuendo to those who are troubled & present my opinions openly in the SRPP section.

My main aim has always been clear & it is to help the community in any way possible.

Why you should choose me?

I don't wanna have UB3R for the userbar, pm space or the ability to neg rep. I want it for the respect & responsibility that comes with it.

Moreover my crypto currency trade would take a boom if I could open my own exchange shop in the marketplace & being an UB3R would greatly help in that.

I respect other people's opinion & try not to get on their bad side.

I have learned a lot from this site & I feel it's only fair to give back time & again but my earnings are so much fluctuating(with the NGO & my college) that I feel helpless but I'm not giving up. ?

I plan to stay here long & be as much of a help as possible to others.

Some last words:

Now I hope I have not bored you with my entry.

I just did what I could do & it's all on you to decide if I'm worthy of it.

Part of the reason why I never bought UB3R myself even when I had the money was that when someone else buys it for me, it's almost like that person has put their trust on me to be HQ.

I would like to be your friend too if it's ok to you.

I never break anyone's trust & so all I can say is if you buy UB3R for me, I'm gonna prove it to you that I was worth your money & I'll make you proud.

?

Spoiler ([Click to View](#))

I put my time & effort into that & I made sure it was different from my other entries.

Thanks for taking the time to read it.

(Oct 4, 2014 04:11 PM)Sizzurup Wrote: [CITE](#) i would like the l33t to ub3r

I don't have a Phone, bank account, paypal, or anything like that. I usually offer my services for free, until a point where i really, really wanted to become Ub3r.

I saved up BTC for months, and months. I did designing jobs, from Signatures, to web designs.

I didn't make alot of money with it. Maybe \$0.10 for a signature, and a few bucks for a Web Design.

After months of designing, doing little jobs, leveling up LoL accounts to level 30, and selling them for \$1, i finally got \$20 in BTC. I then contacted a really good friend of mine, called Money Maker Mike. I talked to him for a long time, and i really trusted him. I then made a deal with him. I sent him the \$20 BTC, and he would upgrade me. Without me knowing, he sold his account on VHF. I lost my \$20 BTC, and my months of working and getting money. I was done, just done. I'm impressed with a few of the applications, and those who it concerns know who you are ;) I appreciate time being spent on the applications.

laklaker - October 8, 2014, 1:18 pm

This is my 401 post since I know that this contest need a 400 post. LOL. (I waited for this moment)

ps: Sorry if its not totally well designed. It just feels like too much preparation is a little bit

exaggerating.

pps: I hope you would read it. It seems that this post is a little bit long. Lol.

So I would like to introduce my self first. I'm Iaklaker from Philippines, a gfx designer (self proclaimed ?) and apparently I have something devil in my body(literally. lol) but as you can see I'm here sitting in front of my laptop trying to convince you to upgrade me to become a I33t. Lol. Actually I do have the money(credit card) to buy a I33t but it seems more challenging if I have got it by contest/giveaways or buying it by the money I earned (apparently I still didn't earn any money as of today, I already brought 4 e books and got me nothing. if you ever have a method that is still working today please tell me. just this favor if you didn't pick me as the one you will upgrade ?. thanks) I'm actually a member of HF since 2011. I'm not that active or lets just say I'm a semi-active member of hf for the past 4 years. Here's my first thread [click](#) and my first post [click](#). It's funny that I have changed a lot and the site, remembering that purple bar and a bigger anonymous icon since 2011 (the time I joined HF). Back when 2011 I was really pushing my self to earn money (I earn money like 10\$ its the maximum) well guess what, nothings change. LOL. I still didn't earn a big money. I did some reselling(that I don't have customers), cpa/ppd(Stil doesn't have approved account on cpa/ppd sites. but I do have a niche), ptc (i have it right now and still working on it), coinminer (For the past week I only earned .2\$. 9.8\$ to go!!) well that's all thing that I've tried. and give me nothing.

I plotted several questions to be asked by me and to be answered by me.

1st Question:Why are you back on HF? It seems that you became active again

Answer: I'm back on HF because of my sickness. I need to earn money because of that, or else I won't be sustaining my supplements that I'm taking. (I'm true with this sick if you want some proof just pm me. I just don't want to post it here because of the stigma and discrimination).

2nd Question:(is this is easy or hard question? LOL. ? sorry for lq jokes.) Why do you want to win this upgrading contest?

Answer: I just want to become I33t like everyone else from this forum. But I'm not that excited to have that thats why I'm still not upgrading myself (however that 1400 message space, picture signature, able to give reps, and having a green icon goddamit i want those thing). And I just want to earn it as what I said at the top on winning in some contest (like this) or in my earned money.

3rd Question: (what level? ?) What did you contribute to the forum?

OMG. That question. I don't have a relevant answer for this. Since I am a semi-active member of HF. I'm weak. sorry. ?.

I think my main purpose in this website is to give joy to other people. I'm being active right now in the Rewards and Small favors (except for those who are asking for \$\$\$. i also don't have those) since I think I could gave my service to them for free and seeing those members saying gratitude messages makes me feel happy. ? I don't know but I think this is me, my real attitude outside or inside the internet. I'm not expecting to be the one who will win but who knows. And for the finale I want to thank you for giving me a job to write long (I think this is the first time I posted like thousands of words here in HF) and sharing my thoughts, a little bit about my life. I would be glad if you picked me as one of the winner (well this is everyone wants right) but if I won't then (please refer to line 9 of my post) and thanking you again for giving me this chance to be a part of your contest. God bless and kudos to your CONTEST! ??

(sorry if my English is not fluent, some repetitive words. its due to my illness)

Because I have been a helpful member here on HF for over 2 years now. I have been active in some other sections but I am mostly interested in the Linux, FreeBSD and Unix flavors section! My main focus here on HackForums is to help people when I can and that is what I have been doing for the past 2-3 years. For that reason I think I deserve an upgrade.

What makes you thing i deserve Ub3r?

Well, i have been as active as i joined HF (2010) and i always try to be HQ. I always try to help other members out (in thread as well as via PM too), i always try to teach people what i can and, whenever i can. i love to give back to this huge community. To tell the truth, i really like this forum, and i just can't spend a day without visiting it. Besides all of this, whenever i can, i try to be the most responsive and helpful person that i can, since i know that to fight the LQ , one must be HQ+.

What have you done for the community?

Ever since i started being more active, i started to do more and more things for the hack forum community. i have a thread that tells members how to hack a wifi over a android rooted cell phone. you can check that thread out here; <https://hackforums.net/showthread.php?tid=4442994> . i also have gave the community free .in Domain and Hosting, you can check that out here; <https://hackforums.net/showthread.php?tid=4446452> and did many OMC giveaways as well given out free OMC to needy people. You can check my profile for my OMC giveaways. i gave people free 4500+ twitter followers you can check that out here; <https://hackforums.net/showthread.php?tid=2964365> . Lots of people likes my Ewhoring Pack and My suppliment giveaways as well as my unlimited hitleap views and facebook followers. My best

part on HF was all about skype credits. you can check it all other threads about my full TUT and giveaways on my threads.

I know its maybe few things, but i try my best to give back to this awesome community as much as i can. I try hard every day in order to help out people, but i can't giveaway money because indian paypal not give permission to do me sent some minor bucks. i'm always thinking of ways of giving back to the community, and i wont stop now , or ever.

Final Thoughts?

i would like to Thank You from the bottom of my heart for being HQ as you are, and i would like to wish all of the entries good luck, and if you win, please wear that colour with proud :)

Kind regards, from ? ŠaLmån KhÄn ? :Oui:

I'm sorry but you have posted the same applicarion 3 times now, and you have been banned from the competition. There's no need to post the same one several times when I haven't decided yet.. And you post the same one on every upgrade contest.

You're getting me wrong brother.

I don't mind that you banned me from this contest. But you have to check that out first and than only you have to take decision after all I am not the thread owner. Final decision is yours.

but,

I posted on first round but not selected

again posted in second round in which you replied that I am lazy and can't post it again so I deleted that post and made new post.

you didn't check that I deleted that post and than made a new post which you quoted just before.

any ways again decision is yours.

thanks ?
