Thread: [\[FREE\]releasing 9+ CRYPTERS for free\[FREE\]](#)

Tetro - October 4, 2014, 4:01 pm

Ok guys, I am releasing 9 free crypters I have downloaded from couple of threads on HF, I know they are not good because no one has detection ratio less than 10/34, but if you don't have money, and need some free crypter, I think that will help you.

You see I have -rep, because I am stupid gravedigger, look at my reputation comments.

These crypters are tried, working and not contains viruses, I am including virus scan of stub and crypter too.

Some crypters have too high detection ratio, but not contain virus wtf.

Arqa - October 5, 2014, 12:04 pm

2, 6 and 7 were sold by HF members and were once permium.

No\$Crypter was a Crypter developed by No\$f3ratu\$, he is the Developer of Data Protector, in the Cryptography section.

N3onight was also the seller of 2012 Crypter, and he is still active on these Forums.

Saddam Crypter was once sold on these Forums by Saddam.

Just a heads up as this could cause you some arguments.

VACxD - December 4, 2014, 12:26 pm

Oh this is awesome. Thank you for posting and willing to share.

Can I please the download link?

Kristofferson - December 4, 2014, 12:38 pm

A heads up, none of these will be FUD. People who don't understand that the more someone has of a crypter the faster it becomes unfud and without updates (Such as with a crack) they are never refudded.
