Thread: [Dternity's Essentials](#)

Dangerous Beef - October 4, 2014, 7:48 pm

Well so i was bored and wanted to code something and i did believe it or not. I came up Dternity's Essentials(Working name) when i figured i wanted to make something that optimized my computer and is pretty handy to have lying around.

Looking for feedback regarding the application and hopefully some entertaining ideas :P.

Features

Screenshot tool to take a screenshot and with the option to save it automatically.

Registry Tweaks

Clear Temp folder

Calculators (Binary,Octal and Hex to decimal and visa versa.
