Looks pretty cool :) If you want, you could even include a native sort of mining calculator, and pull in the price from AllCrypt (at intervals, since it has a fairly strict API limit).

Cool Idea, I'll see if I could develop something like that

I would also like you to put the wiki in the list, because you have omnicoin.org at the top of the list, but no link to the official wiki (which is better updated)

Link: <https://github.com/Omnicoi n-Project/Omnicoi n/wiki>

Very cool! This will definitely help the Omnicoin community!

Simple, but a cool idea. :) I'd love to see more apps in relation to Omnicoin in the future.

Personally, I'm a huge Android nerd so I support the fact that you released it for Android, but I can totally understand why iOS users want it to come out on iOS.

Keep it up c:

Looks really cool. Thanks for featuring OMC-live in it :) Good luck with the project, i'll be using it for sure.

BigBoss13 - October 8, 2014, 4:48 pm

Thanks for support, and if you think I'm missing anything post it here! ??

henkielul - October 9, 2014, 2:54 am

Damn Windows phone D:, nice one tho !

Cyber Saint - October 9, 2014, 4:29 am

I'd recommend making a new logo for the application, however. The white text on the OMC logo doesn't look the best.
