He even suggested me to change the fud file a bit so this seller does not take your money and execute but really helps you for the best result. Also, I had some problems with so called 'botted traffic', those were fake botmonitoring bots or something. I contacted the seller and he gave me some more (real) HQ bots. Don't hesitate yo buy from him.

Differences about the loads and installs.

Installs: They execute the file on the bnet, it probably already has 15 pieces of malware on it already thus high killrate etc

Loads: Should be your file in the EK which is executed so the traffic should be fresh with little to no malware and ideally doesnt touch the owners bnet

You really need to do your own research first like the rest of us. The forum here is filled with all sorts of information about rats, crypters, botnets, etc. Some things you have to just do your own reading-up on first before venturing into things.

You're right, and I've tried that. What I really want to know is what 'installs' and 'loads' are, and how they come beneficial.

Mr Honeypot,

Installs: They execute the file on the bnet, it probably already has 15 pieces of malware on it already thus high killrate etc

Loads: Should be your file in the EK which is executed so the traffic should be fresh with little to no malware and ideally doesnt touch the owners bnet (usually isnt, usually they load to the bnet then execute on yours, so its just like installs LOL.)

?

gloaminggrape - February 2, 2017, 2:25 am

Hello,

This looks awesome - I added you on skype. Looking forward to a response.

ChnK - February 2, 2017, 6:31 am

I bought 100 Loads around 9 days ago, everything went fine, 74% execution rate. But I bought 200 Loads around 5 days ago, and I just got 30% execution rate with the same file. Seller showed me stats and everything was fine, so I guess it was something at my side. But reading the post above, dunno what to think. Hopefully this was a one time error.

Odin. - February 2, 2017, 11:44 am

I was away since yesterday and you guys start to spam my sales thread. Please stop sales trashing and ask support in pms or jabber.

keesieboy - February 2, 2017, 12:34 pm

Newbie here. I bought a reasonable amount of EU bots from this guy. Contact via Jabber was pleasant and well informed. He even suggested me to change the fud file a bit so this seller does not take your money and execute but really helps you for the best result. Also, I had some problems with so called 'botted traffic', those were fake botmonitoring bots or something. I contacted the seller and he gave me some more (real) HQ bots. Don't hesitate yo buy from him.

Differences about the loads and installs.

Installs: They execute the file on the bnet, it probably already has 15 pieces of malware on it already thus high killrate etc

Loads: Should be your file in the EK which is executed so the traffic should be fresh with little to no malware and ideally doesnt touch the owners bnet (usually isnt, usually they load to the bnet then execute on yours, so its just like installs and yes they work to mine alt coin and xmr both.

This is not a DRILL or a JOKE.. ODIN botshop is the best on HF tested and confirmed. Execution rate is 80% delivery speed is %100 and after 30 minutes still have 78% bots active

????? SimPly The Best. I would be a bastard if i do not come back ?

Thanks. This service is for serious buyers only. Low balers and q bot skids please stay away from this topic.

i am very interested to buy will go and buy some btc^^

kpown - April 29, 2017, 3:02 pm

I would rather buy from a smaller seller like Odin than a huge botshop god like bull or something

no offense to bull I'm sure he's good, but you get more support and probably higher quality from a smaller seller Imo

I purchased \$50 of loads from Odin and \$50 from Magician botshop. \$50 gets you 500 executions vs. only around 300 executions with magician (magician selling at a higher rate of \$15 per 100)

With Odin, I received all loads I paid for. They are mix, with various hardware. From magician, I only got about 80 bots, and they were all proxy servers. gg. buy Odin bots.

My most of customers are getting 50-60% execute rate. Stop using miner directly and buying loads if you are looking good execute rate. None of ek can give 30-40% knock rate ever. So please stop bitching and get away from my thread.

Ps : Buy Installs if you're looking good excute rate
