Thread: [Where to sell premium tumblr themes](#)

Loiter Squad - October 5, 2014, 11:17 am

So I bought a couple premium tumblr themes a while back, and I have no use for them. i would like to sell them for a big discounted price. Like one theme I have, fluid 2, is \$49. I want to sell it for \$20 cause I need some money right now. Any where I can sell them? I'm not upgraded so i can't sell it on here.

You can sell them in the secondary marketplace- found here: [Member Sales Market](#)

Anyone with positive rep can sell there. Hope I helped! :)
