Thread: [Autodesk FREE \[AutoCAD, 3DS Max, Maya, and MORE\] \[OFFICIAL WEBSITE\]](#)

Shibalnu - October 7, 2014, 3:44 pm

Autodesk announced today that they will be giving away 100% Free 3 year licenses for ALL of their software to students and educators. This includes AutoCAD, 3DS Max, Maya and more (including addons). These usually sell for \$3,000-\$6000! Note that these downloads are for the FULL SOFTWARE. NOT TRIALS.

All you have to do to download these is Register on their website as a Student or Educator and download them on the link below (This requires no proof. It just asks for your name and School). The downloads come from the official Autodesk website so there is no risk whatsoever.

Holy shit.

I absolutely fucking love you.

Might finally be able to pump out some decent content with these :D

The gmail + trick works for registering.

Got 10 accounts incase they stop offering this ?
