Whether this turns into a discussion is up to you guys.

So far it's one of the only anime I've liked this Fall. F/Z and KKK OVA is the only two other anime I liked. The beginning of the first ep was pretty generic-y, felt typical. Though, in the end it redeemed itself. I was not bored throughout the whole ep, maybe a bit in the middle, but the anime has a tremendous amount of suspense.

I think everybody should check it out, only one ep has been released so far.

Ep 1 was crap in comparison to all the other much stronger shows this season. On the verge of being dropped.

That said, probably not going to turn out THAT bad.

Like what? I've seen most of the first eps of the fall season and dropped nearly all. Trinity Seven is a joke, Cross Ange or w/e is also terrible.

F/Z is the only anime worth really watching.

Nobody else watching this? Wow, this is truly an underrated gem.

Episode 2 was stunning. Action throughout, there wasn't a scene where there wasn't. A bit psychological, but overall amazing.

Pretty good, but definitely not one of the best for this season IMO.

For people who have watched EP2

Spoiler [\(Click to View\)](#) Are the 4 other warriors with the princes part of the original 5 legendary generals or...?

Who are they?

I don't know what your asking, I think it is one of the best. Besides F/Z and Kiseijuu: Sei no Kakuritsu, I haven't seen too many standouts. The OST is amazing and fits perfectly with the theme of the anime. My spine tingles when I hear it, so badass.

Spoiler ([Click to View](#)) I was trying to ask, Who are the 4 other people who are with the princess (misspelled it before).

IMO, I think they are the 4 other generals that was mentioned earlier in the episode.
