Thread: [Offering spreading service | 5\\$ for 100 bots | BTC only](#)

Tetro - October 8, 2014, 9:08 am

I am offering spreading service.

Please read all the informations wrote here before purchasing or PMing me.

I have 500-1000 downloads, and 100-400 executions a day.Pricing

Pricing is 5\$ for 100 bots for UB3Rs and L33Ts with +rep only with showing teamviewer or skype video proof about how much bots they got.They are paying after recieving 100 or more bots (deal).If not, I am stopping spreading immediatelly without exception.

For other users it is 7\$ or I can refuse it without reason.They are paying after I have 500 downloads (100-200 bots) or I will tell you before purchasing.If not, I am stopping spreading immediatelly without exception.

You must have bitcoins already when purchasing, nothing like "I will buy bitcoins and send you then" or "I can't send you them now" etc.!

If you are paying before starting spreading or while starting, you have 25% off.

Informations

I have 500-1000 downloads a day, and 100-400 executions a day.

Only one negative is, that almost all bots comes from czech republic (approx 70%), slovak republic (20%) etc.

The bots will not arrive immediately, only after few hours (often after one-two hours), and real spreading ratio after 3-5 hours.At night is spreading ratio minimal, in the evening best.

Contact

If you have any questions, or want to purchase this, feel free to PM me.

Understand please, that I am from europe, and have UTC+01:00, that it is possible when I have day you have night...You can see my local time at my HF profile.

Actually available spreading service for 1 (one) person.
