I need to learn about everything to do with MS Exchange, how it works, how it's set up, what it relies on etc - can anybody provide some sites that can help me with it?

When I studied for my MCITP I used the self-paced books, although it is very dry material, they are the best books you can use for certifications and getting to know all the ins and outs.

I've got this one for Exchange 2010:

[http://www.amazon.co.uk/MCTS-Self-Paced-Training-70-662-Pro-Certification/dp/0735627169/ref=sr\\_1\\_1?ie=UTF8&qid=1413545254&sr=8-1&keywords=MCITP+exchange](http://www.amazon.co.uk/MCTS-Self-Paced-Training-70-662-Pro-Certification/dp/0735627169/ref=sr_1_1?ie=UTF8&qid=1413545254&sr=8-1&keywords=MCITP+exchange)

You can of course also try to find the ebook somewhere online ;)
