Thread: [Convert a VM image to an ISO image - 10\\$](#)

-ViTALiTY - October 10, 2014, 11:09 am

I need someone to convert PinkPanther's VM image available here:

<https://hackforums.net/showthread.php?tid=3502982>

To a bootable ISO.

Why?

I can't run the image on my PC, some error with intel-vtx that cannot be solved. So I need to boot it live.

If anyone can do it, go ahead. I'll pay you 10\$, Paypal.

Yes, I am still in need of it.

Thanks.

My BIOS does not have that option.

Still, thanks. ?
