Thread: [DataProtector v2 or Cyber seal or ???](#)

kuxarodathaxor - October 10, 2014, 1:30 pm

I need really good long time fud crypter etc...
So people say DataProtector v2 or cyber seal

Guys i need your help What is best? or u know some other ? Say and help me please

I have 70-80\$ to spend! but i like lifetime... but 6month is still good.

Cyber Saint - October 10, 2014, 1:31 pm

Both of them get the job done in my opinion, either route will be great from my perspective. Wait for replies from other members, though.

I think CyberSeal is long FUD and not expensive.

kuxarodathaxor - October 10, 2014, 1:35 pm

Cyberseal is RUNTIME/SCANTIME FUD ?

Please dont use caps lock.

I dont know if its runtime FUD but im sure its scantime FUD.
