Hey HF Community,

If you're someone who uses Photoshop or Cinema4D and you've got a lack of certain files for your graphics look no further, This is my own made and sorted Graphics Resource pack, this includes the following:

1. Brushes
2. Fonts
3. Pre-Made Products
4. Renders
5. Stream Overlays/Avatars
6. Textures
7. Wallpapers

Picture Proof:

Inside they've got the .PSD and .JPEG /.PNG With these.

I Vouch 100% There Is No Virus and This Is Even The Result From Virus Total.

ToS:

1. You will not use these files in which to portrait them as your own.
2. This pack Is Free, don't make anyone pay for this If anyone catches a user doing this, report It to me and then I'll add them towards a black list which Will result in me making the Packs Password protected (you will need a password In which to open the folder).
3. If you use this product I would love to see your end result from what You've seen within my work.

P.S - If you want you're welcome to share this if you want to put this into your signature.
