Thread: [Want a Skype account suspended? Look here!](#)

Jeremy White - October 11, 2014, 10:52 am

This thread was recently being used to offer a service which involved suspended Skype accounts. I have now decided to sell the method instead. Please understand that I am not in any form related to what you do with this method after I have sold it to you.

I'm selling a method which allows you to suspend any Skype account. This method is not public as far as I know and it has 100% success rate. I'm not selling an e-book ~ I am selling the actual method, so don't expect a nice document. It will be a simple explanation of how to carry out the actual method in a .txt file.

I'm going to be selling the method to two users for roughly \$100 per copy (BTC only). This method cannot be patched because it's their protocol to do this. I will demonstrate the method in action for serious buyers.

No, you bluntly accused this of being a scam attempt. You're crazy. I wish I could post PMs.

If I sell the method ~ I only plan on selling it to two people and you didn't reply, so what do you expect?

The method is fairly easy, Claiming to skype that your account was hacked, They'll suspend the account instantly.

Execpt it can get appealed and removed in 15 mins.

I assume this is permanent.

How can you even say that if you don't know what method I'm using? Stop sales trashing, reported your post + do it then.

There is a different method, as this method is patched.

You gave me a vouch copy, but never did something (not even replied).

Jeremy White - October 13, 2014, 2:25 pm

Who are you? I stated I'm not giving anymore vouch copies away; this is a sales thread, not a giveaway. I don't want the method to get saturated or leaked.

Nice OP, but I think \$100 dollars is a lot for this method. My friend about 2 years ago gave me a link that was under skypes website...it was some hidden link kind of thing. I still have it, you go to it, type in your email password and username and it deletes your skype. The link still works for me as well. So I think you shouldn't be selling this method to people for \$100 each because I could make a quick buck if I decided to sell the link I have that allows you to delete an account in matter of seconds.. Just sayin, glws.

For that link you need user and pass .-.

here you just need a username.

Jeremy White - October 16, 2014, 4:02 am

Online and looking to sell this. Doing \$75 BTC per copy. Please be aware that the method I am offering is permanent closure and not a 15 minute suspension which other members are selling.

If you're still offering vouch copies i would love to try this out :)

Thanks in advance op!

I know it's not but you have no proof it works. Vouches will help improve sales (not saying this to get one as it's a fact) You do not have to give me one but i thought there were a few vouch copies available.

Glws anyway

I'm currently online and selling this method. It has not been leaked nor is it public.

Is this the same method another is selling? I saw a thread similar to this can't recall who it was by though, I know it was for \$100 BTC Also.

I'm actually selling the method for \$75 now, can't edit the thread though. I cannot confirm if it's the same method that he's selling ~ but I doubt it.
