Thread: [Shmoop Book Summaries | Easily Search & Read Book Summaries | Includes Source](#)

Secret Agent - October 11, 2014, 11:03 am

Use this program to easily find book summaries on Shmoop.

How to use

Just type in the book name (ex: Lord of The Flies) or a Shmoop link to the book (ex: <http://www.shmoop.com/lord-of-the-flies/>) and it'll give you a list of the chapter summaries if the book exists in Shmoop's database.

Shedletsky - October 11, 2014, 12:08 pm

Going to check this out right now!

Thank you in advance.

EDIT: Works great, thanks man.

Toys™ - October 11, 2014, 3:33 pm

This is beautiful. If this existed last year I would have used it for my English class instead of Google.

Hiiro - October 11, 2014, 9:37 pm

You can shorten your getBetween function by a line by combining your var and return together, example:

Bumper Sticker - October 12, 2014, 12:41 pm

This is amazing! I should have thought of this while I was doing an essay on how to kill a mockingbird! Good job.

hellopurebasic - October 12, 2014, 6:38 pm

Going to check this out right now!

Thank you in advance.

EDIT: Works great, thanks man.

Chrigga - February 23, 2015, 10:32 am

Amazing work man, it'll be helpful for those still in school

SIM-1676753 - February 23, 2015, 2:07 pm

Lmao. I'm "reading" the same damn book for my class. Shmoop is a great site.
