Thread: [Lowballing the Battlenet Store\[UBER Savings\]\[Vouches\]Start your own Gametime store!](#)

Christian Bale - October 11, 2014, 6:31 pm

First 2 purchases get \$5 off

(Oct 11, 2014 03:41 PM)Im YoonA Wrote: [\[CITE\]](#) Bought the bronze version. This method is so easy and basic with 1 minute of work. I just bought a server transfer for \$11 after reading the eBook. The eBook explains everything well and you can lowball the store for sure. Just so you guys know this means that you aren't getting things for free, but A LOT cheaper than the basic price.

FAQ

What regions will this work on?

I have only tested both methods on a US account many times.

How long will the basic edition take to receive a product?

After reading the ebook, the method takes 5 minutes to receive your heavily discounted gametime/account services.

How long will the diamond edition take to receive a product?

The diamond edition takes more time, usually about a week for everything to click. But the rewards are more than that of the basic edition, as you can resell the codes.

What products can I receive from the Basic Edition?

30/90/180 day game time

All account services (excluding guild services)

What products can I receive from the Diamond Edition?

Basic edition products+

Pets and Mounts (exluding Warforged Nightmare)

Do these methods require an investment? (apart from money to purchase gametime/services)

The diamond edition requires an investment- just like any store/venture would require. The basic edition does not.

TOS:

Spoiler [\(Click to View\)](#) You may not distribute the eBook in any way shape or form.

I am not responsible if your purchase the method for EU.

I am not responsible if this method becomes patched/saturated.

Chargebacks and any other scams will result in an instant scam report against your name.

No refunds will be provided at any time.

Both methods have only been tested on a US account. Purchase the ebooks for another region at your own risk.

I can change the price at any time with no form of warning.

I can change the Terms of Service at any time with no form of warning.[/align]
