What's in this? Just basics of what you need to e whore? Like how to act like a girl, convince guys, all that shit or is it methods?

EDIT: Just bought this to see what it is, will post what I think soon

This E Book is pretty much the bare basics that you can learn anywhere in this section for free. Just my opinion, could be useful for somebody who knows nothing and want's to spend \$5 to have all the basic info in one place

There is two methods within it though.

I will be updating and adding in more overtime, unlike other's who sell eBook's I will actually update the content within weekly with new methods or tricks I have learned overtime. ?

We made a deal, we both agree'd on it. ?
Deal can easily be posted in a marketplace discussion if need be.

You have what you wanted, you have to go by the rules that we pre-setup.

It was already discussed between me and you that you were a section leader, leave the group all you want.
You were still section leader. ?

I will be awaiting your deal dispute.

I don't owe \$25, we already both got the deal done and you were given your section leader.

You broke a rule, I was lenient on you.

Now you're being cocky towards me, gives me a right to do what happened.

As for removing you from the thread, which one may I ask?

If you're talking about the section information, I see where you're coming from.

I was editing it last night on mobile, I put an assistant for the section then removed it, sadly I copied and pasted it into the sector leader spot.

Had too much work to do once I got home to edit it and completely forgot about it.

But if you want to continue on with a deal dispute, go ahead ?
