Thread: [Thoughts on Cannabis Flavoured E-Liquid? \(No THC, 100% Legal\)](#)

Barneyyz™ - October 15, 2014, 4:51 am

I've been talking to a supplier of e-liquid who can supply cannabis flavored e-liquid.

Flavours: AK47, Dutch Treat, OG Kush, Critical+, Purple Blueberry, Silver Haze, Skunk, Sonoma Coma, Strawberry Cough and White Widow

Sizes: 10ml bottles, or 100ml bottles.

Nicotine Levels: 0mg, 8mg, 12mg, 18mg, 24mg and 36mg

PG/VG Mix:: 50/50

Just looking for some input on this before I purchase anything.

Leave questions/comments bellow and I'll try my best to answer.

Krew - October 15, 2014, 4:54 am

Why would anyone want cannabis flavoured liquid stuff while it has no THC? Makes no sense to me lol.

zSerity - October 15, 2014, 4:54 am

I've been wanting to try this stuff, vaping or whatever.

Is it addictive or bad for your health?

Barneyyz™ - October 15, 2014, 4:55 am

It's one of those wacky flavors, for to satisfy needs for nicotine.

That's like saying - why have strawberry flavored eliquid, when you can eat a strawberry? or why have banana when you can have a real banana?

(Oct 15, 2014 04:54 AM)zSerity Wrote: [\[CITE\]](#) I've been wanting to try this stuff, vaping or whatever. Is it addictive or bad for your health?

Not addictive if you get the juice without any nicotine. As for your health, there hasn't been any definitive evidence on its health effects yet.

Barneyyz™ - October 15, 2014, 4:58 am

(Oct 15, 2014 04:54 AM)zSerity Wrote: [\[CITE\]](#) I've been wanting to try this stuff, vaping or whatever. Is it addictive or bad for your health?

It's really to satisfy a nicotine addiction - so it's considerably safer than smoking as there is no tar, carbon monoxide or any of that shit.

E-liquid normally comprises of a nicotine solution of your choice, a mix between Propylene Glycol and Vegetable Glycerin which isn't harmful as far as I'm aware and I've read up on a few documents (both medical and opinions) and flavoring.

I don't understand the people that go for Omg eliquid, but that's also there.

Krew - October 15, 2014, 5:01 am

Exactly. Why would anyone smoke liquid strawberry? That's pathetic yo.

Just messing with you btw

°CuddleyDeath - October 15, 2014, 5:08 am

As for health effects, we use PG in the medical field all the time. It's the primary propellant in inhalers, if that gives you any idea on how safe it is. VG is one of the most organic substances on the planet, so I'm not all that concerned with the health effects.

Barneyyz™ - October 15, 2014, 10:34 am

Anyone else wish to add some input in to this? Looking to see what the market is like.

SAD BOYS97 - October 15, 2014, 1:48 pm

I think this would be great for people that are on probation or are just unable to supple themselves with thc. Its a cool idea idk why someone would not like it

?Plutus - October 15, 2014, 2:00 pm

How do you make the flavor with no THC? Why not smoke a joint? I'm on probation but this is a trigger to me. Why taste if I can't feel. Idk I think it would be good to sell eliquids (all flavors) and just include the cannabis flavors in your variety.

Orgasmic - October 15, 2014, 2:01 pm

If I wanted the taste of cannabis, I would smoke a joint.

Barneyyz™ - October 15, 2014, 2:08 pm

(Oct 15, 2014 02:01 PM)Orgasmic Wrote: [\[CITE\]](#) If I wanted the taste of cannabis, I would smoke a joint.

As would I, and as I do.

However, when you're just chilling in your house and you want a smoke (cigarette) - you can just puff away, think of it like a present cigarette.

This the exact thought that came to my mind.

b?xxy - October 15, 2014, 2:11 pm

I really want some, you should definitely hook me up with some free stuff <3

Did you seriously ask this?

I'll ask this:
Is water addictive or bad for your health?

1nh4le - October 15, 2014, 2:42 pm

Not sure why you think thats a bad question.

Nicotine can be addictive...

bugga - October 15, 2014, 2:48 pm

Would be a stupid investment, people smoke weed to get high, not because it tastes good :/.

Barneyyz™ - October 15, 2014, 2:49 pm

(Oct 15, 2014 02:48 PM)bugga Wrote: [\[CITE\]](#) Would be a stupid investment, people smoke weed to get high, not because it tastes good :/.
It's not a cannabis substitute, Bugga.

It's an e-liquid, a nicotine substitute. ?

bugga - October 15, 2014, 2:51 pm

Yes but wouldn't it be better to have something that tastes okay, like apples, strawberry ect ? You know pot doesn't taste all that great.

(Oct 15, 2014 02:51 PM)bugga Wrote: [\[CITE\]](#) Actually nicotine is apparently harder to quit then heroin. ?

I'm assuming you have been addicted to both nicotine and heroin? ?

Depends though, I smoked for a good couple of years and haven't touched a cigarette since I moved to my Aspire vape.

Went from 24mg down to around 12mg.

Just keep working the way down, and then you're just busting the habit of putting your hands to your mouth 200 times a day. Must say though, it's working great for me, and a few of my friends that moved on to it.

But it totally depends on your mindset, if you want to quit - you can. ?

That's an interesting chart, good thing you didn't do heroin!

?

I am simply saying cannabis flavor ecigs are a bad investment, this got so of topic ?????. You wanna waste money on it fine, its your money, I just think its a silly move myself.

Crypto - October 15, 2014, 3:00 pm

I've smoked all these weed strains except for two of them.

I never tried E-liquid with cannabis taste though.

I prefer the High over the taste many times on strong weed, If I would have to puff on a E-liquid with that flavor all day it wouldn't be the best I think. It's a lot nicer to smoke some fruit-flavour I guess.

Barneyyz™ - October 15, 2014, 3:02 pm

Hmm, thanks for the comments anyway.

I could get some pretty cool fruit/drinks and sweet flavored ones. Was thinking the market here was

a tad saturated with them though. That's why I cracked out the cannabis flavours. :P

Nicotine can be addictive...

I guess I've got a resistance to nicotine then. We were at a local pub one night until about 1 in the morning , and I sat there puffing through his drip tank mod (something like that.) He had a really nice sugar cookie flavor at 3mg nicotine , and I used it for about 2-3 hours straight almost breathing the stuff. I don't really feel a need to go back to it though. Then again it was only 3mg , and the highest I've seen was like 36mg.

Barneyyz™ - October 15, 2014, 5:14 pm

Completely blew my mind.
