1. Go to <http://adf.ly/stlrt>
2. Create a free account
3. Login
4. Click on (Add Site/Page)
5. Select (Traffic Exchange) and enter your adf.ly link, click (Add Page)
6. Click on (Traffic Exchange) and then press (Start Traffic Exchange)

You will now get points by visiting other sites (automatic) and those points will be removed from your account on likenation when someone visits your adf.ly link.

When you click on (Start Traffic Exchange) a popup will show up, don't close this as it will automatically browse pages and you will earn points

You can also get Youtube subs, etc. It's a very cool website.
Enjoy!

You will get banned, did you not think that adfly would find out and ban you for using TE?
