Ever had that feeling when an anime is over your life is just like..

"Wtf am i gonna do now?" I have that feeling..

I'm so sad Aria the scarlet ammo only had 13 episodes and ended in such a bad way, it wasn't even an ending! :(

Uh. It was actually a really, really bad Anime lol. Extremely cliché, nothing special.

The only thing going for it was Rie Kugimiya, and her performance in that wasn't exactly stellar either. Still I do like me some scarlet haired loli.

Yeah, she's a legend. On my favourite list for MAL too lol. Don't get me wrong, I did enjoy the Anime but it was still terrible.

Nobody can resist the loli.

Ang?I - October 15, 2014, 9:52 pm

Used to get PADS when hadn't seen that much anime and just finished a really good one e.g. Code Geass. Now I just start a new series almost immediately after and feel fine.

NoSuchAgency - October 15, 2014, 9:52 pm

I have that feeling with Hunter x Hunter when I finished. I WAS SO SAD ;(

Yes. I'm still waiting with tears in my eyes for season 2 of Jellyfish Princess.

I miss laughing and smiling throughout the entire series ;~;

Having a bad day today? Don't worry, i have them too.

Vip?r - October 15, 2014, 10:11 pm

I've had those feels many times, but then a new exciting anime comes along.

Fireworks - October 15, 2014, 10:25 pm

LOL. OP got the feels from Aria the Scarlet Ammo. GG.

Dragon. - October 15, 2014, 10:34 pm

God. I felt that after White Album 2. They NEED to make a S2. They can't just leave us hanging like that :(

As a side note, I dropped Aria the Scarlet Ammo or w/e. Same cliché plot and type characters that I've seen in countless other shows.

Oh my god, after that scene with the

plane taking off

after which

WA2 [\(Click to View\)](#)

Setsuna said, "I'll stay here so that my heart doesn't freeze."

Then the

end credits showed up?

I nearly punched a hole in my wall.

I need to watch the white album series. Thanks for reminding me.

SHUTUP DRAGON. The feels are coming back ?

Most people recommend not even bothering to watch White Album.

Just watch White Album 2. It's so much better. It isn't a sequel. You aren't missing anything by skipping the original one. It's set a couple of decades after the first, and apparently the only references is that one of the songs sung in WA2 was sung in the original.

Your taste in best girl is seriously lacking, it's obviously Setsuna.

I actually don't know which girl I prefer from WA2.

I love how we just totally hijacked OP's thread lol.

I hated how she knew how Touma and Haruki felt toward one another and got in their way.

But yeah, it was really, really hard to decide (in fact, I'm still kind of uncertain).

Fireworks - October 15, 2014, 10:59 pm

I'm watching the first one. If i didn't it'd be like jumping off a bridge without a bungee.

Endou - October 15, 2014, 11:37 pm

The same happened with AIRGEAR, the anime ended without any real reason. The MC didn't even fought the boss, not did he challenged any high lvl' ST. Nor did he confessed to the girl he liked. I was like FAFAQ?

Ya figured this aswell. At first I had bad appetite and shit for days if I was really into an anime, but after a bit I realized the best solution was to just start a new anime right away.

PADS? Never heard that one before. I suppose it stands for Post Anime Depression Syndrome? Hehe cool that there is a acronym for this kind of feeling. I suffer from it too. Mainly because I am sad that there is no more content of a likeable show. But I don't watch a lot of anime nowadays anyway.

VYKTOR - October 16, 2014, 2:54 pm

I just finished reading the manga of Tokyo Ghoul & I feel so fucking bad that I can't say anything.

Good thing though I heard the second part of the manga was released too so I read it & began all random speculations.

Seven7 - October 16, 2014, 6:19 pm

I had that feeling when I finished watching code geass R2 its probably in my top 3 anime

CCBM - October 16, 2014, 6:20 pm

I felt this way when I finished Non Non Biyori.

Still waiting for the 2nd season, it's been like 10 months...?

Gladly - October 16, 2014, 6:34 pm

I got this feeling after finishing FMA:B. It took up so much of my time that I felt so empty for a bit afterwards.

kaio-ken - October 16, 2014, 8:49 pm

I feel Anime is more emotional than real shows. Its funny it feels more authentic when a anime character says something other than a human being. I'm not dissing Actors in any way; just the ones that are bad.

But is it just me or is there a PADS thread every week haha?

Wait, you got PADS to the point where it affected you appetite haha?

Hentai? - October 16, 2014, 10:55 pm

I know right, exactly how I felt after watching Boku no pico. Such a classic.

david0826 - October 18, 2014, 2:13 pm

I've experienced this many times too, most recently when I finished Toradora, about three weeks ago, which incidentally, was around the time Mahouka Koukou no Rettosei finished (another one I was following actively)

robo2207 - December 30, 2014, 3:10 pm

lol yeah i know that feeling :D i hate when a good anime is over :)

Omshivam - December 30, 2014, 3:19 pm

I've had the feeling before when I watched Yu-Gi-Oh! and InuYasha. The feeling sucks so much, like there's a void to fill. Eventually you move on and find new anime, and you realize that you can always re-watch anything that you finish. Although the experience of initially watching won't be the same. ?

eight - December 30, 2014, 11:58 pm

who the fuck cries or gets emotional over a cartoon? grow up and quit being a weeb

Vandie - January 1, 2015, 3:46 pm

I get this feeling whenever I finish an anime. Even if I'm re-watching it. So I go code some shit then run strait back to the plasma...

Patskies - January 1, 2015, 7:21 pm

Yeah it usually takes me about 3 days to get over a good anime. Not fun when you get to the last episode.

I'm so sad Aria the scarlet ammo only had 13 episodes and ended in such a bad way, it wasn't even an ending! :(I felt the same way after Toradora! and Angel Beats. Watching Love Lab and it is pretty cheery!

Azsry - January 3, 2015, 5:48 am

After watching so many anime you realise that they're never going to have closure with a single season because 99% of the time (the 1% being original animations) the manga hasn't reached a conclusion that the animation studio can use for the final episode, so they have to opt for a dodgy, half-hearted, open ending.

But you still have me.

Lyrarei - January 3, 2015, 5:59 am

Then find another anime to fill that gap OP. ;)

shaheermalik - January 3, 2015, 10:18 am

yup

thats the worst feeling i have ever had
only solution is that , watch another one

severos - January 3, 2015, 9:05 pm

well, when I first started watching anime it happened to me, probably during first... 30 shows or something like that, so I used to watch the whole season but not the last episode, so in reality, the show has never ended for me XD

but after all the shows I've seen I kinda got used to it, but still feel sad whenever I finish a show :/
