Thread: [Using proxies with a web browser.](#)

root_z - October 17, 2014, 3:14 pm

Just thought I'd release this as it may come in handy to people.

This is not my code!

```
Code <Runtime.InteropServices.DllImport("wininet.dll", SetLastError:=True)> _
    Private Shared Function InternetSetOption(ByVal hInternet As IntPtr, ByVal dwOption As Integer,
ByVal lpBuffer As IntPtr, ByVal lpdwBufferLength As Integer) As Boolean
    End Function

Public Structure Struct_INTERNET_PROXY_INFO
    Public dwAccessType As Integer
    Public proxy As IntPtr
    Public proxyBypass As IntPtr
End Structure

Private Sub UseProxy(ByVal strProxy As String)
    Const INTERNET_OPTION_PROXY As Integer = 38
    Const INTERNET_OPEN_TYPE_PROXY As Integer = 3

    Dim struct_IPI As Struct_INTERNET_PROXY_INFO

    struct_IPI.dwAccessType = INTERNET_OPEN_TYPE_PROXY
    struct_IPI.proxy = Marshal.StringToHGlobalAnsi(strProxy)
    struct_IPI.proxyBypass = Marshal.StringToHGlobalAnsi("local")

    Dim intptrStruct As IntPtr = Marshal.AllocCoTaskMem(Marshal.SizeOf(struct_IPI))

    Marshal.StructureToPtr(struct_IPI, intptrStruct, True)

    Dim iReturn As Boolean = InternetSetOption(IntPtr.Zero, INTERNET_OPTION_PROXY,
intptrStruct, System.Runtime.InteropServices.Marshal.SizeOf(struct_IPI))
End Sub
```

USAGE:

```
Code UseProxy("IP:PORT")
    WebBrowser1.Navigate("LINK")
```

Nice C+Ping the Code from youtube

If you gonna post something make it your code
not someone elses !

Copy and pasting code and not giving credits is not good.
Please leave this section if this is all you are going to do.

WZDY - October 24, 2014, 8:14 am

Some people might actually find this handy.
No reason to hate as the OP said that this wasn't by him.

Anyways, thanks for sharing.

Anyways, thanks for sharing.Exactly. Thank you for appreciating the share.

I found this on Google somewhere and couldn't find it on here, hence the reason I posted it.

kenny3514 - October 24, 2014, 11:28 am

Thanks man is very usefull, thanks for share :)

Who Soup - October 24, 2014, 12:01 pm

Thanks for the useful share OP

I personally wouldn't use it because it would fuck all of my internet explorer settings.

Archives - October 24, 2014, 2:26 pm

Thanks for the share OP. It might be helpful.

Spoiler [\(Click to View\)](#) You should always give credits to the owner, image the hard work he/she did.
