Well please help me i spend 5 hours to create a thread! but when i went to post it i got the error your pics are 40 and limit is 15
any possible way to solve this !

I tried making a single pic also! but it will not make my work good and size also turns to be more than 5mb and so unable to upload!

HELP GUYZ!

but that will ruin the quality of my work and i have 2-3 lines between each pic!
and i dont have photoshop and not even a good designer to make it that way!

If i get the same type of solution will close the thread and accept that will have to try more!

You can't just bend the forum rules because you've got more pictures than what is allowed.

You'll just have to find a way to fit your thread into the rules of thread posting. Like Effexion suggested, your best bet is to try and make the pictures into fifteen smaller pictures.
