These were all taken with my iPhone. I edited them using my PC. Please be honest.

The one with the stars and the cabin is actually very very good. The others (no offense) are just a bit

better then normal iphone photography. The one at starbucks is just a picture of a busy starbucks. BUT the one with the stars....that's legit.

Babz - October 22, 2014, 1:07 pm

The stars one...the stars one....that's crazyily good! (is that even a word?)

xgolubx - November 16, 2014, 7:53 pm

Which one would you like the most. I will give you my honest opinion on that one. btw i have artistic distinction so i know somethig on this subject ;)

zarnyi - November 18, 2014, 6:09 pm

wow amazing pics, my fav one is the one with the star at night. good job ?

owenn - November 18, 2014, 6:17 pm

I really like the first one! I would appreciate more of the rocks and water, rather than a 1/3 of the frame being a tree.

smock - November 18, 2014, 8:57 pm

These are good pictures but I feel they have too much saturation, other than that good job

nondescriptoldie - December 18, 2014, 8:42 am

The star one is amazing! I also like photo No.1 but the rest are just literally normal casual photography! :P

Simply™ - January 6, 2015, 10:14 am

Awesome shots man, really good work. You can kind of tell that some of them are Iphone pictures but, no biggie. Feel free to post to my photography critique thread. Pick your favorite one and post if you'd like.
