Thread: [IP Logs](#)

Ways - October 21, 2014, 8:32 pm

I log on HF from my house computer, my cellphone, sometimes my cousins house (they dont use HF), sometimes using wifi, and I use the computers at my school campus which is a lot of different computers but probably not the same IP address.

F8 could check my shit out but I dont want any "suspicious activity", etc. ?

Oak? - October 21, 2014, 8:34 pm

I don't understand what your asking.

Are you just alerting us that your account may be marked as a suspicious login?

yeah

i dont know how that works here but i go to a uni and regularly check up on my PMs from there

dont want any flags on my account u feel me

I wouldn't worry about it. I do exactly the same. So long as nobody else uses HF on those IP addresses of said devices, you'll be okey. ?

As Curt said. You will be fine. I use HF from a multitude of places.
