Thread: Need logo for street performance tuning!

Jeremy Clarkson - *October 22, 2014, 10:25 am*

Me and a friend have started a business in tuning cars and need a logo to get us going.

Here are some logo's i have seen and quite like:

If anyone could make something similar high res logo it would be nice. Text needs to say "Street Performance Tuning" ideally no background and is going to be put on a black website so ideally a red and white themed logo.

If anyone can help i will very much appreciate it!

Thanks,

Carliber
