Youtube Removal/Copyright Guide

Hello and welcome to my thread. I recently discovered a way to remove Youtube videos fast, and efficiently well within Youtubes 24 hour basis. I have used this method sucesfully and removed a video.

Not an upgraded member? Check out [this site](#) to buy it for yourself.

Proof it works:

Spoiler ([Click to View](#))

As a way of saying thanks to the forum I will be giving this out to Upgraded members who have indeed upgraded within the forum. All you have to do is PM me for the method. I would be glad to Share what I know on the procedures and I would be happy To help you out with the method. However, be sure to say Thanks if you do get this method. Or [click here](#)

Using this method

By using this method I am in no way affilaited with what you do With this E-book or the consequences of the actions to either Your Youtube account or anything related to Youtube.

-Do not use this on huge videos for instance videos with over 100k subs or something or a verifed account. It won't work And Youtube will just terminate you.

-Don't share this method with anyone else. I beg of you this Is one I just puled off randomly while fiddling about with Youtube And the copyright centre

-Don't compalin to me if you have been terminated by Youtube Like I said you're responsible for your own actions I can't do Anything if they find you out (which is hard to do.)

-This method is brand new to an extent and hasn't really been seen. This method is only avaiable under the vouch copies which has a Protected document.

-If you want a reseller copy where the file is NOT protected then PM me.

So yeah, PM me for the method and I will get bck to you within a few Hours depending reallyly if I am online or not. If you like this method Leave a vouch below I would appreciate thanks if this works.
