Thread: [How do I make Omegle recognize ManyCam 2.0? I'm on OSX.](#)

ZombaterTheUnru1y - October 24, 2014, 11:17 pm

I have an old version of ManyCam, as the new version for OSX still requires the watermark to be on, which is stewpahd. So, on ManyCam 2.0, is there a way to make Omegle recognize ManyCam?
