Your probably best off using ebay to be honest.

Try alibaba or aliexpress. Alibaba will probably have it, but you have to buy in bulk.

If your not looking to buy in bulk just ask a friend. Seems like everyone has a spare Xbox controller that isnt used often and you can probably get it for like \$5. Other than that go for eBay.

eachmall.eu (I think) had parts for my iPhone and PS3 controller, and they're cheap and decent quality. Maybe they'll have it there for you too.
